Patrons, and citizens generally, are cordially invited to be present.

Rev. Bixler preached to a large congregation Sunday morning on—"Retribution in this life," taking Jacob as an example. He chose his text from Hosea, 12: 2.

We have three acetylene light plants in our town: W. S. Miller at the post-office, Jerome Moyer, and Clark M. Gramley. Why don't the churches get a move on, and give us better light? The present light is miserable. It almost reminds one of the Noachian age. The ministers even seem to have hard times reading the Word, especially their sermons. Give us better lights, let us all say.

A little boy was told at Sunday school that when he died he would leave this body on earth. After returning home he was much troubled in regard to it, and questioned his parents. His mother explained it this way: "You will take all that is good with you, and leave all that is naughty here below." The boy thought for a moment, then looking up said: Well, I'll be awfully thin when I get there, won't I, mamma? I guess there will be a good many like that boy: Don't you think so dear reader? How is it with you?

John P. Brugger lives in Johnstown. Well, there's nothing strange about that, but on last Friday morning he and his family skidded, believing that the great flood of '89 would be duplicated. They arose at four o'clock and found their cellar filled with water to within half an inch of the first floor. They all quickly prepared to leave, called a cab, and struck for the station where they, a little later, embarked for their former home, Unionville. The water in the streets was from three to four feet deep, so that it reached nearly to the top of the cab, and to avoid getting their feet wet they got onto the cushions with their feet and "hunkered" it all the way to the station. Of course they were scared! who said they weren't?

Atley Davidson, the new brakeman on the Valley R. R., climbed up another rung on the railroad ladder. The other day, coming from Lock Haven a biped, in the shape of a man, who had imbibed too much fire-water, became boisterous and foul-mouthed, using language unfit to be heard by ladies or men either for that matter. Atley said he must stop it or he would have to get off the car. This made the fellow angry and he said he didn't care a— for him, whereupon Atley reached out his right, landed on the fellow's busser and sent him to the aisle carpet. He then grabbed him by the coat collar and planted him on his seat the rest of the way, wiping the claret from his mouth, completely covered— much to the pleasure of the lady and gentlemen passengers. Keep right on, Atley, the railroad company is already looking for a successor to Pres. McCrea.

The amateurs of our town are rehearsing the very laughable farce comedy entitled the "Jaysville Junction," under the leadership of James Pratt.

Their object being to give an entertainment in the Grange Hall, on Friday night, March 29, to be repeated Saturday night the 30; proceeds for benefit of Presbyterian church. The play is one of those innocent, harmless, funny ones, that the most scrupulous christians need not hesitate to go and see, and hear it, have a good laugh and weigh one pound more than when you went, besides helping the church.

Ventilation is Bad.

The Commonwealth of Pennsylvania has had to go to State College for assistance in correcting some of the defects in the State House as a result of the work of Architect Joseph M. Huston. Louis F. Reber, dean of the school of mechanical engineering and professor of mechanical engineering at State College, will begin an inspection of the system by which the building is ventilated. He has been retained by the Board of Public Grounds and building to make a thorough inspection and devise ways and means for relief.

They Will Make 'er Pay.

Jacob and Andrew Knisely, have leased the Nittany Inn at State College, and thus they will try their luck in making a success out of what proved a failure for others. Capt. W. F. Reber tried it awhile but gave it up several weeks ago and Charley Foster has been running it since. The Knisely brothers occupy a room in the building with their pool room and billiard parlor. A first class hotel is what is needed at the college, and everybody is hoping that under the new management everything will be serene and lovely.

An Excellent Entertainment.

Thursday evening the class in music taught by Miss Mary Brady, of Bellefonte, were royally entertained at the residence of Mr. and Mrs. J. C. Meyer, on Curtin street. After which a sumptuous musical was given which was highly creditable to Miss Brady and the members of the class.

COCHRAN'S STORY.

His Pension Measure Accomplished an Unusual Thing in the Senate.

J. Henry Cochran, of Williamsport, has the reputation on Capitol Hill of being the most modest and unassuming of the older members of the senate, and he did what no other member of that body has ever yet been able to do when he obtained the passage, with only one dissenting vote, of his bill providing a pension of \$5 to \$10 a month for the Pennsylvania soldiers and sailors of the Civil war.

This bill is a copy of the law now in force in the senator's native state of Maine, except that those who are entitled to a pension are paid through the county officers, while in the state it is proposed to pay through the state officials. When the bill was under consideration in the senate, Senator Cochran told the following story in the explanation of what prompted him to introduce the measure:

"I was up in Maine hunting last fall and one man I met there from the old town where I lived, I knew when I was a boy in Williamsport. He was working on the streets to earn a living, in addition to the pension he received from the government. I said to him:

"Jim, how does it come you are over here? Isn't this a pretty poor place for a man to live in?"

"Not for me," he said, "because the state of Maine, a couple of years ago, passed a pension bill to permit all the soldiers living in the state, who served in the Civil war, to have a pension from \$5 to \$10 a month."

"Now, that is where I got the idea of this bill," said the senator, "and I think it is a shame if Pennsylvania does not do the same for her soldiers."

A Good Record.

This week the annual Methodist conference for Central Pennsylvania is being held in the First church in Tyrone with Bishop McDowell presiding. Rev. James B. Stein, who has been pastor of Bellefonte church for the last year, is in attendance and, of course, the members of the congregation expect him to return.

During Rev. Stein's pastorate here his labors have been crowned with success. A summing up of the work for the year shows that twenty-five new members were received into the church by letter and two into membership from probation, while fifty-eight were received as probationers, fifty-two of whom were converts at the big revival meetings.
