Lohr moved to the place vacated by Felty; Will Leech and family moved to place vacated by Sol Lohr; John Osman to the place vacated by Leech. The party at the home of J. E. Osman was in every way a success, and the feature of the evening was the jig dancing by Will Leech. Of course he took the ginger snaps. We were all glad to have an invitation to Leech's moving as it was one of the big days in Shingletown. The dinner set before us was fit for a king, and the way some of the older ones ate it seemed as though they thought it would spoil before they got through. Those who were first to sit down and last to get up, were Jacob and Andy without saying anything about Smith or Thomas and don't forget the teacher or Sorely who nosed out in the fifteenth inning and said he was sorry Pete, the dog, was not alongside of him to show him how it was done. After the work was done in the evening we all had a good social time and before we realized it the wee short hours of the night were upon us. Then came the scramble for hats, wraps and best girls, of which some were successful and some were not; a few stayed to keep some of the members of the family company, for they knew they could not sleep in the new home the first night. "April Fool's Day" was made memorable in this place by the teacher fooling all his scholars. After a vain attempt by the scholars to fool the teacher, he went into the school room rang the bell and the scholars fled into their places only to find upon the blackboard these words "April Fool."

John Leech is at home from Altoona assisting with the moving. The weather changed so suddenly here from warm to cold, that the frogs were frozen with their heads half way through the ice, and their mouths open, and the last croak frozen between their teeth. E. Caution. Imitations have been placed upon the market so closely resembling Alcock's Plasters in general appearance as to be well calculated to deceive. It is, however, in general appearance only that they compare with Alcock's, for they are not only lacking in the best elements which has made Alcock's so efficient, but are often harmful in their effects. Remember that Alcock's are the original and only genuine porous plasters—the best external remedy known—and when purchasing plasters the only safe way is to always insist upon having Alcock's.

To Hear From Cooper. L. T. COOPER. We wish to call the attention of the public to a series of "short talks" by L. T. Cooper that are to be published in this paper. The Cooper medicines have made a remarkable record in the leading cities of the United States during the past two years and young Mr. Cooper has been the subject of much newspaper comment. Mr. Cooper has met and talked with thousands of sick people in his visits to almost every large city in the country. He is noted as a man of very few words and tells briefly in these articles what his preparations are doing for sick people and why they have been successful wherever introduced. Mr. Cooper's theory is that one half of all human ills is caused by stomach trouble, and the wonderful success of his preparations in the treatment of stomach disorders, kidney and liver complaints, rheumatism, etc., seems to have proven this claim. Some time ago we secured the agency for these celebrated medicines. We have been gratified by the extreme satisfaction of those who have purchased them from us and advise every one to read these "short talks" as they are full of terse, common sense. SIDNEY KRUMRIG, Drugist.
