The Jayville Junction, as played by our amateurs on last Friday and Saturday nights, was decidedly the best thing that was ever "pulled off" at this place; everybody present was delighted. It was funny from the rising of the curtain to the grand finale. The approach of the train coming to the station was very realistic. Clifford Calhoun, played the agent, played his role well; Harold Fisher, as trunk smasher, could hardly be improved upon; Foster Holt as conductor, was o. k.; Hassel Stere, as Rastus, played the coon to nature; Chas. Holzworth, as Samp L. Case, was good; Gilbert Underwood, the dude was fine; G. W. Smith, as Gus Hamburg the Dutchman, was dandy; Roy Hazel, as detective; George Moran, played Willie Rawraw; Jas. Pratt, as Reuben Hay, was one of the best characters in the play; Chappie Underwood, the tramp, took the house down. But for fear of taking up too much space, I cannot do the actors justice. The other actors who took part in this funny play were: Thompson Henry, Blair Holtsworth, John Rowan, Boyd Irvin, and Misses Sue Underwood, Kathrine Smith, Bess Pratt, Verma Moran, Alice Henshaw, Marie Griest, Wilmina Emerick, Hanna Holt, Tracy Shipley, Winefred Smith, Ruth Parsons, Sara Harper, Mrs. Harris, Laura and Marian Kumberger, Clark Emerick, in his recitation of "The Second Table," elicited great applause. The fact is, they all did so well that we cannot decide who was best. The Pink Sash Drill, by ten young ladies, led by Miss Alice Buck, was a most beautiful and fascinating sight. If I were passing the cakes I would see that Sarah Harper, Chappie Underwood, Bess Brown, Oh Gee! a whole lot more, should be among those who receive the largest cakes on the dish, and they shouldn't have a hole in it either; in fact, I would have all the cakes the same size. It should have been seen to be fully appreciated. They realized about \$25.

FROM OHIO.

Editor CENTRE DEMOCRAT:

Enclosed please find one dollar which place to my credit for the Centre Democrat another year, as it is most impossible for me to do without it as I get all the latest news every week from home. I think Ohio is a fine and prosperous state. For farming of course there is some poor land, the soil is mostly sand, muck and some clay. I don't think farmers here spend as much time on their land as they do in Centre county and have better crops.

Wages are very good; farmers pay from \$1.50 to \$2 per day for labor and \$25 to 30 per month and keep a horse. Some crops were very good last year, corn extra good, also potatoes and wheat. Oats, hay and cabbage were not so good in this section. The winter was quite cold here, but very little snow. Every body has their ice houses filled.

Yours Respectfully,

W. E. EMBICK.

Legal Noon.

The courts of several states have dealt with an odd question, none of them agreeing upon a similar answer. When is it legally noon? Fire insurance policies expire at noon, and the word is added to mean exactly 12 o'clock mid-day. But standard time has not been adopted in all communities. Many small towns cling to sun time, which may be from a few minutes to nearly an hour earlier than standard. In one state a fire occurred at two minutes past noon, sun time, and the insurance company held that the policy had expired before the fire. Sun time is used in that town, but the insured sued the company holding that local customs did not rule the policy and that he was entitled to his insurance. The state courts sustained him. In another state a similar contention was taken to the courts and just the opposite decision given. Several conflicting precedents have been established in state courts, and it is said the question can only be decided for good and all when a case has been carried into the United States courts and passed upon by the supreme court.—New York Press.

HAVING REFERENCE TO PENNYPACKER, THE PHILADELPHIA RECORD, MAKES THESE PERTINENT ALLUSIONS: A not impertinent question has arisen whether the eminent jurist who lately presided over the Board of Public Grounds and Buildings was really aware of the effects of his resolution that no bid for furnishing the new Capitol would be considered unless it included everything to be supplied, and of the subsequent advertisement of the board declaring that separate bids would be received. If the simple-minded Governor was the dupe of Upholsterer Huston, why did not such acute business men as Auditor General Snyder and State Treasurer Mathews protest against the palpable iniquity?

It is stated by the Harrisburg "Star Independent," that as the Senate at its last session a year ago failed to confirm the appointments of Governor Penny packer to the Quay statute commission, that body has no legal existence. The Philadelphia "Press" says this is undoubtedly correct. Three Cheers!

Different trees are known by the bark, but it's different with dogs.

J. Newton Bell, of Spruce Creek, Huntingdon county, was a business visitor in Bellefonte recently. Mr. Bell is a former Centre county man, having resided near Penn's Furnace until about six years ago when he purchased an excellent farm at Spruce Creek and removed to that place. He is doing an extensive dairy business, the product of which is sent to Tyrone and Altoona markets and from which he is realizing a neat profit.

On Sunday evening Martin Reese, the conductor on the Snow Shoe train, saw a lamp explode in the home of George Uzzle who lives just across the street from the Reese home at Snow Shoe. He ran over, and with hard work saved the house from burning down. As it was, Mr. Uzzle lost most everything in the room where the lamp exploded. The Uzzle residence is one of the finest in the town and it would have meant a heavy loss to the owner had it gone up in smoke.

Thursday T. C. Foster a special inspector and demonstrator for the division of zoology, Harrisburg, was in Millheim and made a thorough inspection of the trees for the San Jose scale. The scale was found at but one place and the owner of the trees was notified by the inspector. Mr. Foster is of the opinion that unless something is done soon, the "yellows" will destroy all the peach trees in Centre county, as all the orchards should attend to this at once if they wish to protect their peach trees.

A SCIENTIST claims that he has made the discovery that the soul is a material body and can be weighed. He has been testing it by weighing the body of a person at the point of death and found upon several trials, that at the very moment that death set in there was a drop in his testing scales that showed that the body was an ounce lighter—in some cases less than an ounce. How the soul took its departure at the last breath he does not claim to be able to explain. But if the discovery were a reliable one (7) why should any one feel afraid? It is a scriptural fact souls are weighed, not here, but over on the other shore, and many are too light to enter into Heaven at all. Some persons sell their souls long before death comes, and the Centre Democrat can class the soul-sellers as the libertine, the thief, the murderer, the dishonest business man, the liar, and many of the same kind.

A young man who had a silent admiration for a young lady went with the intention of proposing to her one night. He sat gazing into her face for a long while, but at last, looking down suddenly, he exclaimed, "There's a feather on your dress, Mary!"
