Now what do you think of a man weighing 350 pounds that can tell a yarn like this: "I was standing on the street one morning when I saw an enormous blacksnake with a head as large as a half bushel, body as thick as a sawlog, coming down the road and going in the house."

Since Jack Shipley has put the finishing touch to Daniel Hall's house with his artistic brush, it makes his neighbors' direction of Unionville. It was one hour and twenty minutes before the tail passed me." The man's name is Phil Craig and he lives at Julian.

For the information of all who patronize Sears, Roebuck & Co., the great mail order firm of Chicago, I would say that that firm were compelled to close their grocery department, the pure food law having driven it out of business. They sold inferior, adulterated groceries, and rather than label their goods properly as the law requires, they chose to quit the business. A prominent local paper says: "They will continue to hunt suckers through their other departments. They cannot compete with local dealers and be honest." I have written this for the good of all communities and think it most emphatically advisable to buy from your home dealers, and believe you will save money besides encouraging home storekeepers.

Colors and Seamstresses.

The seamstress, passing her needle through and through the fabric on her lap, said:

"I love to sew white. I love to sew green too. Pinks are easy. So are most of the clear, pale tints. But black! But red! But shepherd's plaid!"

She threw back her head in horror. "Bright red, when you sew it, inflames your vision, it angers you, it makes you nervous. Black strains the eyes out of your head, the stitches in it are so hard to see. Black is a depressing color too. But worst of all is that combination of black and white called shepherd's plaid. Work on shepherd's plaid an hour or two and the black and white squares will dance under your eyes like living things. Polka dots dance, too," she ended. "The polka; hence the name."—New York Press.

The Childish Voice Too Much. A good story is told of Signor Foll, the famous basso. Once upon a time he was singing "The Raft," when a childish voice from somewhere in the stalls suddenly piped in and attempted to organize an impromptu duet. Unfortunately the next line of the song was: "Hark! What sound is that which breaks upon mine ear?" This so tickled the fancy of the great vocalist that he burst into a hearty fit of laughter and left the platform, followed by the pianist. Twice they came back and attempted the song, and finally they had to give it up in despair, much to the amusement of the audience.

Many Kinds of Days In One. A mean solar day is the average or mean of all the apparent solar days in a year. Mean solar time is that shown by a well regulated clock or watch, while apparent solar time is that shown by a well constructed sun dial. The difference between the two at any time is the equation of time and may amount to sixteen minutes and twenty-one seconds. The astronomical day begins at noon and the civil day at the preceding midnight. The sidereal and mean solar days are both invariable, but one day of the latter is equal to 1 day 3 minutes and 56.555 seconds of the former.

A Safe Perch. At the crowded downtown corner the frightened pedestrians were scurrying out of the way of street cars, automobiles, delivery wagons and policemen on horseback.

"Gosh," exclaimed the window washer, looking down on them from his perch on the narrow ledge of a fifteen story window, "I'm glad I ain't in that crowd!"—Chicago Tribune.

Almost as Good as Art. Small Edith was visiting in the country for the first time.

"What do you think of our rural scenery, dear?" asked her grandmother.

"Oh, it isn't so bad!" replied Edith.

"It looks almost as natural as real theater scenery."—Chicago News.

Collision—Not Collusion. The Judge—in this divorce suit there seems to be some collusion between the man and his wife. The Wife—Collusion? No, it's been collusion ever since the ceremony!—Pittsburg Gazette-Times.

IT WILL BE INTERESTING. The following article was published in Penrose's "Keystone Gazette," of this place, October 11, 1906. To the person sending us for publication, the best comment, on the following article, limited to 50 words, a prize of \$5 will be awarded—

"The Democratic candidates and State Treasurer Berry are going up and down the state maliciously lying about the State Capitol, just as they deliberately lied about the State Treasury and Enterprise bank failure last year. They know they are lying for the purpose of deceiving the people.

"The yellow journals are also maliciously lying about the State Capitol as they did last year about the city of Philadelphia, State Treasury and the Enterprise bank failure.

"He (Berry) does not specify in his charges a single item in which the State has been cheated. He simply indulges in general charges and base insinuations of wrong-doing, hoping thereby to deceive the people and have them foolishly vote to injure themselves. These charges are false and they know it.

"Will the people allow themselves again to be deceived and fooled by yellow journals and political demagogues and LIARS?"

A number of interesting comments have been received from all parts of the county, and the same will be published in our next issue May 30th, instead of June 6th. Any parties desiring to submit any comment therefore are urged to submit same at once.

The Pennsylvania railroad, it is announced, contemplates changing the terminus of the Pennsylvania & North-western branch from Bellwood to Tip-ton, four miles farther east on the main line. The reason for this change is the heavy grade between Bellwood and Glasgow, making necessary two and three locomotives to haul trains. It will require over \$1,000,000 to make the change and practically ruin Bellwood.

The Pennsylvania railroad is engaged in making a survey for a proposed new low grade line from Petersburg, on the middle division west of Huntingdon, to the terminus of the present low grade line at Enola, just across the Susquehanna from Harrisburg. Assistant Chief Engineer Martin and several corps of civil engineers are now stationed at Lewistown, having completed their survey that far.

That the time mispent by the women of Bellefonte in playing cards is not lived but lost. It will all have to be accounted for some day.

The little flowers now sleep in spring beds.

FORTUNE AT STAKE.

A Peculiar Situation Resulting From Shriner's Wreck.

Disposition of the \$60,000 estate of Louis N. Ellenbogen, of Reading, will depend upon proof as to whether he or his wife, who were killed in the wreck of the Shriners' train at Honda, Cal., died first. So far any details that would be effective in a court room of law are lacking. The dispatches both private and to the papers say they died together.

Mr. Ellenbogen, who was in his 35th year, had, up to the time of his departure, accumulated an estate of about \$100,000 investing it in bank, industrial stocks and town lots. Before leaving on the trip to California he secured life and accident insurance to the amount of \$50,000. He had no children and did not make any will. The insurance is payable to his estate. If he died first, his wife's parents, Mr. and Mr. Hiram Barber, of Philadelphia, will be entitled to half his estate as heirs of the young widow, even though she survived her husband by only a minute. If the wife died first, the entire estate will go to his parents, Mr. and Mrs. Abraham Ellenbogen, of Allentown. The testimony of home-coming survivors is eagerly awaited.

Mr. George W. Hassenplug, of Hartley Twp., while attempting to jump on a moving train at Warren, Pa., on Saturday, fell therefrom
