L. T. COOPER.

RHEUMATISM

Old Mr. Rheumatism hangs on tight and bites and pinches when he takes hold. It's quite a job to shake him off. It's hard to believe that all the pain and trouble he causes comes from such a little thing. Just a tiny bit of acid in the blood the kidneys haven't taken care of. But the kidneys aren't to blame. I used to think they were. Now I know better. It's that over worked and over crowded stomach giving the kidneys part of its work and the kidneys can't do it. I found this out with Cooper's New Discovery. It puts the stomach in shape, that's all it does, and yet I have seen thousands of people get rid of rheumatism by taking it. That is why I am positive that rheumatism is caused by stomach trouble. Here is a sample of letters I get every day on the subject.
"For a long time I have been a victim of sciatica and inflammatory rheumatism, and my suffering has been too great to describe. For weeks I lay helpless with every joint in my body so tender and sore that I could not bear to move. The slightest touch would cause me the greatest agony. Several doctors treated me but they failed entirely. I tried many remedies but nothing seemed to reach my case, so I continued to lay helpless. My kidneys and stomach were affected also. I could eat but little, digest less and gradually my strength left. I lost flesh rapidly."
"I began the use of the famous Cooper medicines of which I heard so much. To my surprise and delight I improved immediately, and after using several bottles I felt like another person. My strength and appetite returned. The pain and soreness left me and now I feel better than I have for months." Lawrence Tuscany, 1122 Aldrich Ave., North, Minneapolis, Minn.
