-News reached Bellefonte, Sunday, that two young men of this place were full as bed ticks in Lock Haven Saturday. They were fellows who, when at home, you would not think butter would melt in their mouths. This was the surprise to the people who knew them.

-At last the finishing touches have been put on the monument and the workmen have packed their tools and have gone home. It is completed, but by no means paid for, and the amount still due is quite considerable.
-Mr. and Mrs. Thomas Jennings, of Wannington, West Virginia, arrived in Bellefonte Saturday evening to spend the summer, if it ever comes. They brought with them a southern bull dog which is a fine specimen of that breed. It is the kind that would brag the bosom of a boy's pantaloons while trying to climb a high board fence, after stealing green apples from an orchard.
-Sunday Davy Stuart, of Bellefonte, left on the morning train to see his lady friend. He was all spruced up to beat the band, and there is no question but that his lady-love thought he was the only pebble on the beach. They needed him, however, at the Methodist church in order to raise the debt. Davy is a pretty good lifter and he ought to have been there to put his shoulder to the wheel. If it had been a pretty damsel that wanted a raise, he would have been there.
-Adam Hazel, of Axe Mann, was greeting his many friends in Bellefonte, Monday. Since Christmas he has been seriously ill with Bright's disease which has been the means of him losing from fourteen to eighteen pounds of flesh. He however is recuperating, and says Sunday was the best day he experienced since he took sick. He now thinks that with a little care and attention as to what he eats he will permanently recover. Mr. Hazel has been one of Spring township's best citizens and it is to be hoped that he may yet live many years.
-Don't forget the Academy reception to-morrow evening. This event of the Academy school year is looked forward to with much anticipation by those interested, and great pains are taken by those in charge to make the occasion a success. -R. B. Taylor, who received the contract for building the new state road between Bellefonte and Milesburg, expects to begin work in about ten days. The engineers will have to stake off the line first so that he will know what must be done. This will give employment to a lot of men and teams during the summer.
-The Bugle corps of the 5th Regiment, N. G. P., made its first complete turnout here on last Thursday when it took part in the Memorial Day exercises. The buglers are nearly all old players in bands and could handle their instruments like veterans, while the drummers can handle the sticks with proficiency. They were the leading attraction of the day.
-Theodore, better known as Dode McCafferty, son of Charles McCafferty, who resides at Bradford, is now making arrangements to build three tenant houses along the P. R. R., between the Potter-Hoy warehouse, on west High street, and the row of double houses known as the McCafferty block. They will be brick-cased and have all the modern improvements, and will be erected under the general superintendency of Thomas McCafferty who is now busy making arrangements to get the material on the ground.
-Every month the Business Men's Association of Tyrone meet and discuss matters that pertain to the best interest of their town. Bellefonte had both a Board of Trade and a Business Men's Association, but they are about as much service to the town as a fifth foot would be to a calf. Bellefonte could have had several more industries had our business men been on the alert. Several small manufacturing establishments is just what we need to make things boom, and why not get after them just as other towns are doing? If we don't watch out a little Howard, will have us beaten to a standstill.

-The game of ball between New York and Altoona, at the latter place on Tuesday, was attended by W. D. Zerby, John Bower, George Kinsey, J. Linn Harris and Harry Gerberick. When the ball was hit far to see a game of base ball they certainly have it good and proper.
-The rain and wind storm of Wednesday blew down the large tree in front of the residence of Mr. Mrs. John Olevine on Spring street. That might be a pretty good thing as it will probably have a tendency of letting a little sun in. Many of the homes are shaded to the extent that they are really damp and dismal.
-The graduating class of 1906 held their annual reunion in the reception room at the High School on Thursday evening and from all accounts the young folks had a most enjoyable time. -Conard Miller, of Bellefonte, has finished the abutments for inter-county bridge over the Beech Creek at Hubbards, near the town of Beech Creek. The iron superstructure will be placed in position just as rapidly as possible. When the new bridge is open for travel there will be a general rejoicing in that section of the county.
-Prof. Isaac A. Harvey, a geologist whose reports merit the fullest confidence of the people, is creating considerable excitement in and around Philadelphia over the discovery of soft coal and fire clay in Rush township on the tract of land in possession of John P. These rich discoveries Mr. Harvey has been making may not only make Harris and his heirs millionaires but it will mean much for Philadelphia's natural prosperity for years to come.
-Saturday the base ball club of the State Normal, at Lock Haven, came to Bellefonte to play the Academy team, but the inclemency of the weather caused the game to be called off. The members of the visiting club brought with them their lady friends and during the afternoon Miss Eva Crissman opened up her dancing hall which afforded the young ladies and gentlemen much amusement. In the crowd was a number of beautiful voices, and their sweet melodies attracted a large audience. Miss Reynolds, one of the teachers at the Normal, chaperoned the crowd and took care that everybody observed the proper decorum.
-Mr. and Mrs. Richard Lutz, of Bellefonte, have just reasons to be proud of their two daughters who have made for themselves an enviable record, and one that should be emulated by other students, whether in the public or private school. Mary E. Lutz was not absent or tardy one day during the entire term of June month. This pretty little girl possesses special musical talent and as a reward for her faithfulness at school, her parents purchased for her a beautiful and costly violin. If Miss Mary succeeds as well in sticking to the instrument as she did her school she will rival the great violinists of the day. Her sister Vivian, only missed three days and that was on account of sickness.

-The movement for the early closing of our stores has been revived. What's the use of talking so much about closing at 6 o'clock? If it is a good thing, when we think it is, then why don't everybody join in and when that hour comes turn the key?

-Rev. Thomas F. Dornblazer, a Lutheran minister of Chicago, was a guest the past few days at the home of Mr. and Mrs. L. A. Schaeffer, on Curtin street. Rev. Dornblazer is a brother of Miss Dornblazer, the great temperance advocate, so well known in Bellefonte.
-D. A. Grove, of Lemont, left here on Saturday for Chicago to purchase a carload of horses, for his sales stables. A letter received from him states that horses are unusually high in price and beyond anything expected to pay. He saw teams sold for over \$500 and single horses above \$300. Few persons in this section want to pay those prices.
-Since the Nittany Furnace has been repaired the iron has been of the very best quality, and is in great demand. Besides this they broke the record in May as to the amount made. For sixteen days there was an average of 136 tons manufactured every twenty-four hours, and during the entire month the output was 4,011 tons. This speaks very highly for those who have charge of this industry.
-The largest mortgage ever entered of record in this county was filed with Recorder John Rowe, this week for \$25,000,000 being that of the American Telephone Company to the Fidelity Trust Company of Philadelphia. This will keep the Recorder busy for some time and if his fee will be in proportion to that of the document he will be on "Easy street" for some time to come, and we wish it that way.
-The public is cordially invited to attend the annual reception of the Bellefonte Academy to-morrow evening. A special invitation is extended to the members of the graduating class of the Bellefonte High school to be present on this festive occasion. Allie Maitland, formerly of Bellefonte, but who is the right-hand automobile man for Keeler & Co., of Williamsport, was with the crowd. He brought with him a four-cylinder Buick car with the object of selling it to Hugh Crider who wants a machine which will cut the wind faster than a train of cars.
-Last week Hon. P. Gray Meek, of Bellefonte, and his good friend Howard Holtzworth, took a little fishing trip to Benner Run. They had with them a team from the Palace and when night came they fed and blanketed the horses and then retired. It was raining so hard that they thought every drop was equal to a bucketful. During the night Mr. Meek got up and found one of the horses was gone. The dense mountains were searched and not being able to find the animal they walked to Unionville the next morning a distance of ten miles, through mud and water. The next day the horse was found, eating grass, not too far from where they camped. The experience was a novel one and not easily forgotten.
