

Circulation Over 5,200 - Largest in Centre County.

BELLEFONTE, PA., THURSDAY, AUGUST 22, 1907.

Vol. 29, No. 33

A MOVEMENT FOR BETTER ROADS

Two Famous Turnpikes may Become Free Roads

MANY AFTER STATE ROAD FUND

Districts Apply to the County Commissioners for Assistance--Few Turnpikes left in Centre County--Public Meeting Held

Two legal advertisements will be found in another part of this issue giving notice that on Monday, Sept. 23rd, sundry citizens of Centre county will present petitions to the Court asking that two more turnpikes in this county be made public roads, free of tolls. They are the "Boalsburg and Bellefonte Turnpike Road" between Lemont and Humes mill in Spring Twp., and the other is the "Agricultural College & Junction Turnpike Road" from Lemont to State College. This move is made principally by citizens of that community. Gen. James A. Beaver is president of these two turnpikes.

Last Thursday evening a public meeting was held in the Arbitration Room, at the Court House, for the purpose of aiding the above movement. John I. Olewine was made chairman of the meeting. After the proposition was discussed at some length, the sentiment was unanimous for the vacation of these turnpikes between Bellefonte and State College. The chairman was directed to appoint a committee to prepare petitions and circulate same among the citizens of Bellefonte asking that these two turnpikes be made public roads, and be presented to the Court. Should this effort succeed, there would be left but one turnpike in Centre county, and that would be the "Centre & Kishacoquillas," from Centre Hall to Bellefonte, a distance of eight miles across the Nittany mountains, one of the prettiest drives in the State.

FOR GOOD ROADS.

Should these turnpikes be condemned the next move would be to have state roads built along their entire length. This could easily be done, as they pass through portions of Spring, Benner, and College townships and therefore the expense would be divided over a much traveled highway.

Our people are at last awakening to the necessity of having better roads, and advantages of accepting the State's aid. Up to this time we missed portions of the allowance by failing to make application in time. Sections of state roads are being built in Ross, Snow Shoe, Spring and Boggs townships, to which reference has frequently been made.

The following applications have been filed with the County Commissioners by different districts in the county:

Snow Shoe, for nine miles from Snow Shoe to the Burnside Twp. line, being the main road--which is in addition to the two miles they now have.

Milesburg asks for a mile through their borough.

Bellefonte wants about a mile and a fourth. These two latter would be extensions of the state road now building between these two points.

Harris township wants about a mile, between Oak Hall and Boalsburg.

Haines township wants about a mile for the road leading through Aaronsburg to Millheim.

Other sections of the county have in view the application for roads. According to this the amount available for Centre county will be more than exhausted by the applications already on file.

In referring to the College pike, we hardly think a more abominable piece of roadmaking may be found--considering the number of "breakers" or bumpers for draining the water, there are possibly over a hundred and fifty along the course, which wrench and twist a vehicle every time they are crossed, to the great discomfort of the travelers. Had the road-bed been elevated in the centre, with deep gulleys on either side, and underground drains all this could have been avoided and the road maintained at less expense.

Turnpikes are being abolished in all parts of the State and it may not be long until the few left in Centre county will become free roads.

SOAP CLUBS MUST PAY TAXES.

Women Affected by New Law Passed by Last Legislature

Bellefonte women who are members of soap premium clubs will be interested to know that under the guise of revising the law respecting the imposing of a license on brokers, there has been passed by the last legislature a law requiring persons who sell soap, perfumes, etc., for premiums to pay a mercantile license of \$10. The new law enumerates the brokers, exchange brokers, factors and commission merchants and merchandise brokers. Merchandise brokers are those who for commission or other compensation make contracts for the sale or purchase of personal property for others.

Under the clause it is believed that the State will next year tax all persons who sell soap, perfumes, etc., for premiums. The tax will be \$10.

Billy Doak Injured.

Friday morning "Billy" Doak, the blind knute, had the misfortune of being knocked down by a horse. He was passing over the crossing on Spring street, near Dr. R. G. Hay's residence, when Ira From came out of the alley with a load of rubbish. From didn't hear or see Doak and the horse struck him and knocked him down. He was carried in to Dr. Hay's office where an examination disclosed the fact that while no bones were broken he was badly bruised and cut. He was taken home in Christ Beeser's carriage. Doak is a poor, unfortunate who, if possible, should be placed in some institution where he will receive better treatment.

SNOW SHOE A BOROUGH

The citizens of that lofty village, Snow Shoe, on the summit of the Allegheny mountains, will soon be putting on metropolitan airs, all because on Friday, August 16th, Hon. Ellis L. Orvis filed a decree authorizing the incorporation of the town into a borough. For some months the question was agitated of bringing this about, and finally a large majority of the citizens of that place petitioned the Court for such a decree.

There naturally was some objection on the part of property owners, on the plea that the change would incur extra expense, and mean an increase in local taxes. The Lehigh Valley Coal Co., who own considerable coal land in the limits of the town, also opposed the move on the ground of increased expense to them. Considerable testimony was taken, and the contentions were fully argued.

The decree of the court is a lengthy document and from it we gather the following important details: There now are nine boroughs in Centre county and Snow Shoe will be tenth. In point of population it will be fourth--those exceeding it are Bellefonte, Philipsburg and State College. Up to this time none of the nine boroughs have found the expense of keeping up such a corporation excessive, and have not been willing to surrender the franchise. Snow Shoe is an established town about 40 or 50 years old, and there is every assurance that its business interests will develop with the future mining of the vast deposits of coal in that section. As a large majority of the citizens asked for the erection of a borough, in view of all these facts, the Court granted the petition. The boundaries include about 185 acres. The following are appointed a commission to make a survey, locate the lines and erect markers: W. C. Snyder, Logan Kelley and Amos Garbrick. Buildings here is the place designed for holding elections and on Tuesday, September 17th, first election for borough officials will be held; at the annual February election, 1908, the regular officials will be chosen. The following are appointed to hold the first election: Grant Kissling, judge; John Tobin and Harry Reeser, inspectors.

This means that those people will have more direct control and supervision over the public schools, the streets and sidewalks, better police protection, will have charge of their own poor--will have a chief Burgess, a town council and a policeman with brass buttons on him to gather up all the bad boys, put them in a "cooler" when necessary and such like.

To our friends of the famous coal town, we extend congratulations. Let the spirit of improvement, like a contagion, go over the town, and as a result produce well graded streets, better parks, improve your schools by having well arranged graded course of study. Make your little city in the mountains a beauty spot with boulevards and parks--because you have the money out there to do it.

When election day comes around, don't figure out Democratic or Republican victories--cut politics out--like practical business men forget political affiliations and select sensible, practical men and the "Borough of Snow Shoe" will be a success. Get rid of your knackers and everybody become a "pusher" and your town will develop as the years go by.

The Granger's Picnic.

Big preparations are now being made for the holding of the annual picnic and encampment of the Centre county Grangers, at Grange Park, Centre Hall, Sept. 14th to 20th. Several new buildings are being erected for exhibition purposes and the grounds are being put in the best possible shape.

Cash premiums will this year be paid for the best of all exhibits entered, stock, fruits, vegetables, etc. Quite a number more tents will be secured for this year's encampment so that there will be ample accommodation for all tenters who desire to spend the week on the ground, as well as for all exhibitors.

The program this year will include a big list of prominent speakers, men who are widely known throughout the State. It is quite likely that both political parties will arrange to have a day in which they will have as the chief speaker their candidate for State Treasurer. In addition there will be the usual list of speakers who will talk direct to the farmers. A good band will be present on the ground every day to furnish music, while in the evening entertainments, there is promise that they will be better this year than ever before. Prof. Geo. P. Bible, an old Centre contain, will be in charge and he will be assisted by Mrs. Bible and her daughter as well as a good sized company of the best talent to be secured in Philadelphia; so that this will be a feature of exceptional interest.

Earnest Wagner Shot.

Earnest Wagner, son of John A. Wagner, of Bellefonte, was shot recently in New Mexico by a ranchman named Sweeney, who is about 68 years of age. He used a .38 calibre revolver and shot him through both legs, leaving him in a rather serious condition, with the probability that his left leg will have to be amputated. The old man's story is that Wagner appeared at his house and wanted work, whereupon he hired him for \$15 a month.

Mrs. Wagner, last week received a telegram stating the boy had been shot but since then she has received no further information. There are conflicting stories as to the shooting. The old man said the boy ransacked the house. This young Wagner denied.

Bridge Contracts.

The contract for building the abutments of the new bridge across Penns creek at Allison's mill in Spring Mills, was awarded on last Saturday to Kniesly & Rhoads, of Bellefonte. They will be of concrete. The superstructure will be placed by the York Bridge company consisting of a low truss, two span structure with concrete floor. Kniesly & Rhoads have done considerable contract work in this section and know how to handle work of that kind to the satisfaction of all concerned.

BUSINESS MEN'S ANNUAL OUTING

A Great Outpouring from two Counties at Hecla Park

EVERYBODY HIGHLY DELIGHTED

With the Open Air Concerts of the Famous Repaz Band--Centre County wins the Shoot, and the Game of Base Ball by 17 to 3

The eleventh annual picnic of the Business Men of Centre and Clinton counties, held Tuesday at Hecla Park, has passed into history as the most successful event of any. The day was propitious to the outing, and all nature seemed to have joined in the festivities of the occasion. It is estimated that there were from 10 to 12 thousand people on the ground and the crowd was so orderly and quiet that the special deputy sheriffs had a dead cinch. They had nothing to do but eat two square meals and draw their pay. The managing committee, composed of J. C. Meyer, Geo. W. Nason and J. Will Conley, are to be congratulated for the elegant entertainment they provided for their friends at headquarters. It is estimated that there was from 10 to 12 thousand people on the ground and the crowd was so orderly and quiet that the special deputy sheriffs had a dead cinch. It is estimated that there was from 10 to 12 thousand people on the ground and the crowd was so orderly and quiet that the special deputy sheriffs had a dead cinch. They had nothing to do but eat two square meals and draw their pay. The managing committee, composed of J. C. Meyer, Geo. W. Nason and J. Will Conley, are to be congratulated for the elegant entertainment they provided for their friends at headquarters. It is estimated that there was from 10 to 12 thousand people on the ground and the crowd was so orderly and quiet that the special deputy sheriffs had a dead cinch.
