CONSTIPATION.

I can tell a person who is constipated on sight. Their complexion is pasty

or yellow. eyes are dull, and they look and feel sleepy. No wonder they do. The bowels are a sewer. They carry away the poisonous refuse. If they dont act the poisonous matter is absorbed by the body, and headaches, dullness, bad complexion and eventually

SAMUEL BOOREN. serious troubles result. There is no better rule for good health than that the bowels should move every day at the same hour if possible. Regularity can be acquired by making a habit of this. Foolish people neglect this and when chronic constipation effects them they take pills every few days to force the bowels to perform their natural function. As years go on they require more and more pills. This should be stopped. Cooper's New Discovery will build up the stomach and cause the bowels to act naturally. While taking the medicine get the habit of regularity, then gradually

stop taking the medicine. Here is a sample of letters from those

who have tried it: "For sixteen years I have suffered from stomach and liver trouble, and chronic constipation. I had frequent headaches and always felt tired and worn out. I heard of Cooper's New Discovery and began its use, After I had finished one bottle I was wonderfully improved. Constipation gave way to a pleasing regularity of the bowels and I ate better, slept better and felt better than I had for months. It is the greatest medicine I have ever known." Samuel Booren. 1742 Munsey Grange Park, Centre Hall Ave., Scranton Pa.
