Saturday they were blasting in the stone quarries in the American Lime & Stone Co., located in Armer's Gap, when one of the employes was injured. Generally four or five holes are drilled in the rocks and when they are filled with explosives they are set off in quick succession. This was done Saturday and when the dust, stone and smoke had cleared away the men went back to work. It happened that one blast failed to go off and one of the foreigners went to find out the cause. He was about at the hole when all at once there was an explosion. The foreigner was thrown considerable distance and when picked up it was thought that the sight of his eyes had been completely destroyed. Saturday we had the pleasure of riding in the Jenkins-Hall automobile. The machine runs like a dandy, with the exception that the sparkers were not working as good as they might have been. These gentlemen have the idea down fine, and it is only a question of time when they will have a machine that will not take the dust from anybody.
There is a report going the rounds that potatoes are going to be scarce article, but on Monday William Clevenstine, of near Zion, was in Bellefonte and stated that he would have the largest crop this year ever he had since he has been farming. He estimates his crop to be not less 800 bushels, raised on four acres of land. It is therefore a dirty Irish trick to try to make the people believe that we are going to run short of potatoes this winter.

In the spring, the peach trees in the orchards of Col. Reynolds, near here, showed such a profusion of blossoms that he expected to harvest 15,000 bushels of fruit. The weather thereafter being unfavorable, the Colonel didn't even get a peach. He tells us his trees are thrifty and healthy from all appearance, but—
Our attention has been called to two omissions in the obituary of Lewis Markle in our last issue, which the sender inadvertently made. The deceased was not born at Pine Grove as the notice says, but was born at the home on the Jacksonville road, about 4 miles below Bellefonte. Among the surviving brothers the name of Samuel was omitted.
Little boys in town, as they walk the streets, smoke cigarettes as nonchalantly as you please. It is a vicious habit and parents should issue strict orders to the youngsters not to do it. The policemen of the town should be instructed to deprive such youngsters of the deadly cigarettes when found in their possession. It is disgusting too, to see some of these hopefuls chewing tobacco.
Rufus Wood and son William, of Sparrows Point, Md., spent Saturday and part of Sunday as the guest of Prof. and Mrs. James R. Hughes. Mr. Wood is a very prominent gentleman of Sparrows Point. He was in Bellefonte in the interest of his son who, no doubt, will be a student during the coming winter at the Academy, as both gentlemen were well pleased with the school and its surroundings.

He is a native of Sunny Italy and comes from one of the most wealthy and aristocratic families in that land. He is a fine looking young fellow and no doubt, will make a success in business. The young fellow who clerked in this store has gone in the shoe business with a relative on Bishop street.
Charles Schadd may not have a gold mine up on his reservation on the mountain, near Armer's Gap, but he is selling peaches at a big price. He has sold about twenty-five bushels and has still more to sell. They are fine and in great demand. Besides this he has raised enough of pigs to supply a town like Bellefonte with pork for a year. This also will bring in a good revenue. Charles one of these days will come down off the mountain with \$50,000 in his inside pocket, and make some of the fellows in the valley look like thirty cents.
In the fall of 1905 John Dubbs, the implement dealer, sold George Bedchel, of Bellefonte, a wagon for \$70.00, on which he paid some money. Finally Bedchel took the wagon and team into Blair county to do some work for Reynolds Shope on a lumber operation. In the meantime Mrs. Bedchel had her husband arrested for some support and brought back to Bellefonte and placed in jail. Mr. Shope claimed that Bedchel owed him for some money he had advanced him and thus went to Blair county and levied on the team and wagon, which was brought to Bellefonte. Dubbs wanted his money and so did Shope, and on Tuesday morning an effort was made to sell the team and wagon, but the legal complication in the case prevented the sale going on. Shope and Dubbs were going to put on the gloves and the atmosphere was soon cleared and both good and reputable citizens are walking around able still to partake of a square meal. Another attempt will be made again to sell the wagon and team on Saturday.

If big John Houser, of Bellefonte, gets to smearing paint, recklessly or putting paper on the wall up side down the reason can be attributed to him thinking about that dear little daughter who came to his home recently. In a short time he will have to shove out his dough, all right, to the milliner and dressmaker. Then it will not be quite so funny.
Saturday three cars, loaded with pig iron, got away at the Nittany Furnace and came sailing down the track at a good speed. The result was that boards had to be thrown across the track to prevent them from going on through to Milesburg. They were stopped in front of the watch box, south of the station. The cause of the trouble was the breaks refused to work.
The Theatorem Company have decided to install an entirely new outfit for their moving pictures. The new machine will be the latest and best and will give a much clearer and steadier effect. The patronage of the public has been so liberal that they are warranted in making this expenditure. Remember, they supply you with a new program every night and the admission is only 20 cents.
Monroe Kramer, of Pittsburg, spent several days in town this week, visiting friends. While here he exhibited the model of a steel railroad tie, for which he recently was granted a patent and from which he is confident of attaining much success. Monroe is a good carpenter and is filled with good ideas. A practical steel tie means a big fortune for some one, and we hope he will get it.
Squire W. S. Williams, of Martha, and his two sons, C. A. Williams and Paul E. Williams, were pleasant callers at this office Tuesday morning. The young men are certainly a credit to the name they bear, both of whom are occupying positions of honor and trust. The former is an obliging conductor on the Pittsburg & Erie railroad. While the latter is the courteous collector for J. A. Elliott & Co's. large home furnishing store at Pittsburg. They came to Martha to attend the Williams reunion and of course such fine looking young men would naturally have a good time.

The Whiteaker Lime & Stone Co., have leased the rooms formerly occupied by Mr. Garber. They have been neatly fitted up and will be in charge of Ed. Richards the business manager. White-rock is becoming a great industry, shipping fourteen to fifteen carloads of stone every day. Besides this they have a big demand for the lime. The fact that the company has established their office in Bellefonte, shows that they are making money or putting on lots of style.
On Tuesday Mr. and Mrs. George Garbrick returned from a trip of several weeks, spent in Ohio, the original purpose of which was to attend the wedding of their son Clarence, at Terry, Ohio. That event over they visited many persons and places they had not seen for thirty-seven years at which time Mr. and Mrs. Garbrick made their wedding trip in that section. They visited Youngstown, Ashland, Mansfield, Butler, Cleveland, Akron, and Columbus. They visited Mr. Garbrick's cousin, J. E. Johnson, formerly of Salona. They took in the big Ohio state fair there and enjoyed seeing the big ship and the elaborate exhibits. After that they went to the penitentiary and the insane asylum where some strange and weird sights greeted them. A Narrow Escape.
Tuesday evening Roy William Royer, Norman Meyers, Thomas Murphy and Joseph Pressler went to Hecla Park for the purpose of picking elderberries which are quite plenty down there. They were in the vicinity of the McMullen farm and after filling their baskets with the berries Mr. Pressler went into the orchard and climbed on an apple tree for the purpose of securing some of the delicious fruit. While there, young McMullen happened to see him, who went and secured his gun. When within a short distance of the tree McMullen fired the contents of the gun into the tree, and the next moment Joe dropped to the ground, more scared than injured. None of the shot struck him but his overalls were badly ripped by the fall, and he looked as if he had been seriously shot at and missed. The whole thing was a mistake, because McMullen would not have objected to these gentlemen taking a few apples, but he thought the man on the tree was some one who had frequently visited the orchard and he was going to pepper him.
