Avoid Extreme Fatigue.

Exercise that brings into action every muscle of the body is absolutely necessary in the attainment of health and per-

fect physical development.

Tired brain workers especially need exercise to renew the supply of blood in the brain, for new blood will give clear

thought and new ideas.

To avoid that "all ill" feeling after any violent or unusual exercise. Sloan's Lin-

iment should be used as a rub-down. Mr. Harry K. Gilman, instructor of athletics, 414 Warren street, Roxbury, Mass,, writes: "During my connection with athletics and athletes, will say that I have used Sloan's Liniment in extreme cases of fatigue after physical exertion, where an ordinary rub would not prove beneficial, with splendid success. I have also used it in massaging elderly men afflicted with rheumatism.

"We always keep a bottle around the house for any household emergency, and I always carry one in my grip, and will in the future.

Spring Mills, aged about sixty years, was badly burned over her body. In some manner her clothing caught fire, and before the flames could be extinguished severe, but not fatal, burns were
