SOME STATEMENTS REGARDING NEW THEORY

Followers of Cooper and His Novel Ideas Give Reason for Their Belief in Him.

With a theory that human health is dependent on the stomach and with a medicine which he says proves this theory, L. T. Cooper, a comparatively young man, has built up an immense following during the past year.

Cooper has visited most of the leading cities of the country, and in each city has aroused a storm of discussion about his beliefs and his medicines. Wherever he has gone, people have called upon him by tens of thousands, and his preparation has sold in immense quantities.

The sale of this medicine has now spread over the entire country, and is growing enormously each day. In view of this, the following statements from two of the great number of followers which he now has, are of general interest.

Miss Agnes Vigenhouser, of 942 St. Louis Avenue, Chicago, has the following to say on the subject of the Cooper preparations: "For more than ten years I was broken down in health. I could not sleep and I was very nervous. Gradually I began to lose my memory, until I could not remember things from one day to another. I had severe pains and cramps in my body, and I would at times see dark spots before my eyes. I was unable to do any work whatever, as my strength was falling. I had no appetite, nor could I take any medicine. I had about given up hope of ever being well again when I read of Mr. Cooper's remedies. I decided to give them a trial, and I began to feel better at once. After taking the medicine for two weeks I can say that I am a new woman. I can eat with enjoyment, the pains in my body have left me, and I am stronger than I have been for years."

Have One Doctor

No sense in running from one doctor to another. Select the best one, then stand by him. Do not delay, but consult him in time when you are sick. Ask his opinion of Ayer's Cherry Pectoral for coughs and colds. Then use it or not, just as he says.

Always keep a box of Ayer's Pills in the house. Just one pill at bedtime, now and then, will ward off many an attack of biliousness, indigestion, sick headache. How many years has your doctor known these pills? Ask him all about them.

Made by the J. C. Ayer Co., Lowell, Mass.
