Directions to Prepare Simple Home Mixture

GIVES THE DOSE TO TAKE

Tells You How to Overcome Rheumatism With Simple Recipe, Which is Easily Mixed. A well-known authority on Rheumatism gives the readers of a large New York daily paper the following valuable, yet simple and harmless prescription, which any one can easily prepare at home: Fluid Extract Dandelion, one-half ounce; Compound Sarsaparilla, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle, and take teaspoonful after each meal and at bedtime. He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and, being of vegetable extraction, are harmless to take. This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are many so-called Rheumatism remedies, patent medicines, etc., some of which give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time. Inquiries at the drug stores of this neighborhood, elicit the information that these drugs are harmless and can be bought separately, or the druggists will mix the prescription for our readers if asked to.

Then your hair will remain at home, on your head, where it belongs. An elegant dressing. Keeps the scalp healthy. Does not change the color of the hair.

We certainly believe this, or we would not say so. Ayer's Hair Vigor, as now made from our new improved formula, is a great preparation for the hair and scalp. Stops falling hair. Cures dandruff. Average of Boston Callers. During L. T. Cooper's recent stay in Boston, it is estimated that sixty-five thousand people talked with him and purchased his medicine. This is an average of over two thousand a day. His success was so phenomenal as to cause universal comment both by the public and the press. There must be a reason for this. Here is the reason given in his own words by Mr. Cooper when interviewed on the subject. He said: "The immense numbers of people who are calling on me here in Boston is not unusual. I have had the same experience for the past two years wherever I have gone. The reason is a simple one. It is because my medicine puts the stomach in good condition. This does not sound unusual, but it is in fact the key to health. The stomach is the very foundation of life. I attribute 90 per cent. of all sickness directly to the stomach. "Neither animals nor men can remain well with a poor digestive apparatus. Few can be sick with a digestion in perfect condition. As a matter of fact, most men and women today are half-sick. It is because too much food and too little exercise have gradually forced the stomach into a half-sick condition. My medicine gets the stomach back where it was, and that is all that is necessary." Among Boston people who are staunch believers in Mr. Cooper's theory, is Mr. Frank D. Brown, of 57
