POTTER TWP.
POLE CAT CITY.
I was out in my air-ship to discover the North pole. I anticipated a lively time when I arrived at the North Pole, I met my Uncle Sam, who is always glad to greet his boys in blue. Accordingly a few days after my arrival, he took me to a factory to make my choice. I would have much preferred a new air ship, but appreciating my Uncle Sam's kindness I said nothing, thereby showing that I had never experienced in that line. On our way to the factory I saw many sights, among which was a lady leading a ground mole by the chain; and a little boy eating a stick of candy with great gusto. Our car ran very fast, but suddenly stopped in the middle of the block, it seemed as if Sam and I were flying in the air; then my uncle and I hastily left the car and, walked the rest of the way. Although I made a specialty of automobiles I manufactured a number of other things. Uncle rode home with me and explained the machinery as we went; the next day being Xmas, I thought I would celebrate by taking for a ride my young lady friend; when I called for her I was astonished to see that she looked surprised when she saw the badge with the initial, G. D. L. stamped in blue, I said that is to represent that I am a full installed member of the secret lodge, which was organized at Colyer. The next day I returned home in my airship; on my way home I passed through Possum Ridge there I saw many families sport on the second diamond; I noticed, to my surprise a signboard up; it read Possum Ridge scribe swallowed by a whale; I said it must be Jonas and the whale, and so ended my trip in my airship.
