CLARENCE.

The boys of Clarence are still in the game, or anything that has a gun in it. There was a rifle shoot at Clarence, on the 1st of February; prizes were a 40-60 Winchester rifle, a 44 rifle and some ducks. The big gun was won by W. S. Crispin, the 44 by McCartney crispin proved best on a rifle by a string at one hundred yards. His three shots made 2½ inch string, while McCartney made close work too by 2½ inch string. The boys do good work when they get into Browns gallery in Bellefonte, they find first-class guns, and Clayton always has a prize up for the boys. They never come away low man; Crispin last winter won the \$10 gold piece at Browns by a score of 29 points out of 30. J. Veideffer, Tom Grove, Aust Veideffer of Moshannon, are the good shots from that section. If C. H. Watson, of Clarence, would practice he would be hard to crawi over. The boys will have another match before long.
