Strohecker, of same place; Ruthie Bartsch and wife, of Earlystown and a number of others. The groundhog came out after her six weeks and was killed—was she good and fat, boys?

The cloudburst at Pottersburg was of such a volume, that it tore out the breast of C. H. Neff's milldam, and did other damage.

Glass 8x10 to 60x70

Any needed in your building or repair work?

Be sure the glass is worth the price paid—and pay enough to get quality and accurate sizes.

For example, there is a car load here of strictly hand blown tank Glasses, best American make, in sizes as above.

Whether you want one light, or enough to fill the windows of a town, or a store full, that would be a good lot to get it from.

Ask for prices—surprisingly low if in connection with building material.
