The public debt 'of the United States increased \$9,299,591 during March, 1908, and congress raised the salaries, which with jobbery by G. O. P. henchmen, accounst for raising the debt.

A. A. PLEICHER, of Howard, the man who came near making the nomination for Register, desires to say that he appreciates the hearty support given him by democrats, and encouragement of reyublicans, also that if every democrat will as cordially support the successful nominee, Mr. Weaver will be elected by an overwheiming majority in the fall. Good for Pletcher.

At the primary elections in Union county the republicans did some creditable work, in that a severe rebuke was administered to bossism and machine politics. The Union county/republicans have done the same thing heretofore, upon several occasions, and if their example were followed in other counties, it would be a gratifying result for honest men. There are a few other counties in the state where republicans have put a veto upon boss and machine rule, and it cannot fail to count for good.

THAT's just it, there is too much law and too little justice. Many times the legislator who makes it his business to kill undesirable legislation is serving his constituents better than the man with a fist full of new bills. Justice Brewer, of the United States Supreme Court recently said: "There is too much legislation. I don't believe in legislation as a panacea for all evils. You can't legislate a man into heav-en. Be loyal to your convictions, have Spring from Millheim to the Reish farm

THE PRESIDENCY.

At what age is a man eligible for the presidency of the United States? At thirty-five years.

Must he be a native of the United States?

No. But he must be what the constitution describes as "a natural born citizen," which means that he must be born either in the United States or of parents who are citizens of the United States temporarily sojourning abroad.

Will you cite an instance of a natural born citizen who was born at Pennsylvania State College and will outside the United States?

Certainly. Mayor McClellan of New York, who was born in Saxony while his parents were visiting there, is a natural born citizen of the United States and therefore eligible to the presidency. He is a natural born American citizen because his parents were American citizens at the time of his birth.

Is the president elected by popular vote?

He is not. He is elected by a body of men called the electoral college, each member of which is called a presidential elector.

By whom are the presidential electors elected ?

By the people. In each state the electors are chosen by the voters on a general state ticket.

How long is the term for which the president is elected ? Four years.

Is he eligible for a third term?

He is. There is no constitutional prohibition, though there is a "third term tradition" which by popular demand limits a president to two terms, and thus far this demand never has been overcome.

OVER THE COUNTY.

Helen ' Hosterman, of Centre Hall, went to Montrose, where she will visit her brother for a short time. Dr. F. E. Gutelious, of Millheim, had

Monday, about noon, W. J. Ishler, a nephew of W. A. Ishler, of Bellefonte, who resides on Dr. R. G. Hayes' farm, Benner township, was coming in from the field when he noticed the roof of the house was on fire. He and his men promptly extinguished the flames but not before a large hole was burned in the roof. Had the fire gotten five minutes more of a start it is doubtful whether the dwelling could have been saved. The fire alarm was sounded in Bellefonte but Mr. Ishler says he did not do it himself

or authorize anybody to do it. The loss is small and is covered by insurance. William Huff Salmon, son of Mr. and Mrs. Charles, Salmon, of near Beech

Creek, is a member of the senior class graduate on June 17, in the mechanical engineering department. Young Salmon has made an exceptional record while in that institution. He has never failed in an examination and will complete his ourse in four years when it usually takes five years. The faculty of that institution give him the greatest praise for the excellent work he has done This young man is certainly to be con-gratulated for his industry and success-ful application to his studies.

AN INDIGNANT SOLDIER:

HOWARD, PA., APRIL 16, 1908.

EDITOR CENTRE DEMOCRAT:--The first battle of ballots is over and the dead and wounded lie scattered all over the battlefield. But all could not be nominated, so it had to be and so it will always be until the end of Time. But, Mr. Editor, it is a wellknown fact that we have what is known as "The Lord and Morality Party," a party that poses as the soldier's true friend before God and the world. If actions speak londer than words, let us view the action of the party towards John A. Daley, an But, Mr. Editor, it is a wellknown fact of the party towards John A. Dr. Robison left for Scranton Friday.

The New Bloomfield Times makes this reference to a daughter of Joseph Gilliland, formerly of -Potters Mills: Miss Bertha V. Gilliland will become a member of the faculty of the New Bloom-field Academy for the Spring term. The Academy is very fortunate in secur-ing the services of Miss Gilliland. She is a graduate of the Pennsylvania State College, class of 1904, having taken the Latin scientific course. Since her gradu-ation she has taught in Williamsport high school one year and two and a half years in Porto Rico, being successful in each position. The New Bloomfield Times makes each position.

A large bear standing in the middle of the pike, the other Saturday night, frightened Mr. and Mrs. D. W. Brad-ford, of Centre Hall, and Mr. Fleck, of Pleasant Gap, who was walking across the mountain. The Bradfords were the mountain. The Bradfords were driving leisurely about midway between the top of Nittany Mountain and "Adams" road, when the horse threw his head up and began sniffing the air, plainly indicating that something un-usual was wrong. Just about that time Mr. Fleck struck a match to light a ci-gar, when to his horror he saw a large bear standing erect and immediately be-fore him, with ivories exposed and ut-tering a challenging growl. After sur-veying the surroundings bruin dropped on all fours, and scampered up the mountain, and was soon out of sight.
