-Several months ago Rev. John Hewitt, rector of the St. John's Episco-pal church, returned to Bellefonte after an absence of twenty-five years. Natur-ally he expected to find the town morally better if not spirtually improved, but since Saturday night a radical change has come over him and he has lost con fidence in some of the humanity that he found around here, and if he had caught some of them he, no doubt, would have laid his clerical robe aside and forgotten the old biblical teaching of turning the other cheek. -Charles E. Fisher, of Boalsburg, was in Bellefonte, Friday looking as fresh as a new blooming rose. Of course there is a future event in his life that acts as a tonic to help him to forget the trials and vexations of the political phase of his life. He filed his account with the County commissioners of the amount of money he blew in during his campaign. It was something less than a million, but it would come handy now. One lesson Charles has learned that while all men are not liars the majority of them are followers of the meek and lowly Annias.

You can imagine the surprise when Rev. Hewitt went to the refrigerator Sunday morning and found that it had been remorning and found that it had been re-lieved of its contents by some sneak thief during the night. You couldn't blame a minister for forgetting his cloth for about three minutes after he would first open the door, especially, at a time when he didn't know where his dinner was to come from. There is entirely too much stealing done in Bellefonte just now and some decided effort should be made to catch the perpetrators and bring them to justice.
