Wingards. "The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But It has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are enected, and many an evil deed or impure thought may be directly traced to the impurely of the blood Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby Jennie Hoy, of State College, spent Sunday with her cousin's Mary and Bess turing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

> In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery "has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr.
> Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical" Discovery as a blood cleansing consti-tutional treatment. If your druggist don't happen to have the "All-Heating Salve" in stock, you can easily procure it by laclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is for "Golden Medical Discovery," which is a medicine OF KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

THE SUMMER VACATION GUIDE.

The summer vacation is the bright spot in the dull routine of the year's work. It breaks the monotony of the daily round, and cheers and invigorates for the strenuous life ahead.

America abounds with delightful summer resorts in valley,

on mountain, and beside the sea. The Atlantic coast line from Labrador to Cape Hatteras contains the greatest number of resorts devoted entirely to the pursuit of pleasure and health One may purchase from Pennsylvania Railroad Ticket Agents, excursion tickets to over eight hundred of these resorts,

covering all the desirable places, from the rock-bound bays of

Newfoundland to the gentle, sandy slopes of the Virginia beach-

es; from the White Mountains of New Hampshire to the Cumberland Mountains of Tennessee; in the wilds of Canada, along the shores of the St. Lawrence and the Great Lakes. The famous seacoast resorts of New Jersey-Atlantic City, Cape May, Wildwood, Ocean City, Sea Isle City, Asbury Park, Long Branch, Spring Lake, Seaside Park, Beach Haven and others, so well known that description is superfluous-are among

the most popular and the most easily accessible resorts in the The Pennsylvania Railroad Summer Excursion Book, to be obtained of Ticket Agents at ten cents a copy, or of the General Passenger Agent, Philadelphia, by mail postpaid for 25 cents. describes them all and gives the rates and stop-over privileges

The Opportunity of a Lifetime for Ambitious Young Men and Young Women to Learn these Valuable Arts.

IS IT WORTH CONSIDERING? Hon. Lyman J. Gage, Ex-Secretary of the U. S. Treasury, once said to some ung friends in advising them as to a desirable avocation to follow: "Learn Shorthand and learn it well; I consider it one of the most valuable arts of our prolific age. There are 1,172,800 stenograpers in the United States, of which numper upwards of 68,000 are taken from the Civil Service list for Government service, the others are in business offices, court stenographers, private secretaries, etc. I know of no more congenial, desirable or profitable occupation for an ambitious young man or young woman, where the chances for rapid promotion are greater than that of a stenographer.

It is important that those who desire to take advantage of this opportunity do so at an early date as the instructor will take up practical shorthand work Oct. 1, and no instructions will be given after September 30.
