AERONAUTIC INVENTIONS.

F. P. Lahm's Use of Wireless Telegra

phy-Device For High Altitudes. The students of aeronautics are hard at work nowadays not only perfecting paratus designed to make aeronautics of greater practical use. Tests in the use of wireless telegraphy for communication between a balloon and the earth have recently been made by the United States signal corps at Washington. The army's big war balloon, pi-

LIEUTENANT FRANK P. LAHM-THE OXYGEN SUPPLYING APPARATUS.

loted by Lieutenant Frank P. Lahm, in an ascension over the capital received distinct messages from the Naval academy at Annapolis. The use of the wireless method of communication between those in airships and those below would greatly assist the signal corps in its work, and the system is being perfected for practical

operation. Another invention that is liable to said: have an important effect upon the future of aeronautics is that of an apparatus for supplying oxygen when at great heights. The rarity of the air at a distance above the earth usually prevents the balloonist from making flights far up into the sky so blue. At a height of about 6,500

feet the air contains a third less oxygen than it does at the earth's surface. At 16,500 feet it contains but one-half what it does on the surface of the earth. The little device shown is designed to be used at such altitudes where breathing would ordinarily be themselves in the science of navigating difficult and much resembles the dethe air, but in the invention of ap- vice worn by miners when penetrating workings filled with gases.

VISCOUNT HOTTA.

Japan's Finance Minister and the Hard

Times In His Country. Viscount Hotta, the new finance minister of Japan, takes up the duties of his important department at a critical time in the history of his nation, which is now undergoing a commercial and industrial depression similar to that in the United States. The depression was caused partly as a result of the hard times in other countries and partly by the Chinese boycott on Japanese products. The fall in the silver market had something to do with it. Baron Yoshiro Sakatani, who has been touring the United States with other eminent men from the mikado's empire, preceded Viscount Hotta in charge of the de-

VISCOUNT HOTTA.

partment of finance and before his retirement from the portfolio completed the formation of the government's financial policy and provided enough money to carry out all the policies laid down. Speaking of the financial depression in his country. Baron Sakatani

"Our financial depression appeared soon after that in America, and I be lieve it is to be a passing phenomenon At bottom the conditions are sound both as to government finances and commercial activities. There have been many bank suspensions, but they have

been in instances where the banks had sprung up during the inflation following the Russo-Japanese war and which were founded on cheap credit. None of the older banks has suffered."

against her, the smiling wife is an improvement on her stern browed sister. and the smiling mother is the one who gathers her bables most tenderly in LAW STUDENT'S APPLICATION. her arms. Children read more in looks than in speech.

"She talked kind, but she looked cross," said a little boy of a new teachmuch more than they realize by the ex- of Pennsylvania. pressions of the faces that they meet in the street. "She was so pleasant" is the inscription on a moss mottled stone in a country churchyard. "She was so pleasant" is not a bad epitaph for any one when the book of life is finished.

The smile is as much the sign of good humor as an open fire is a sign of warmth and cheer.

How to Boil Fish.

How to Boil Fish.

In boiling any fish you should put enough water in a large pot to enable a fish to swim in if it were alive. Add to this water half a cup of vinegar, a teaspoonful of salt, one whole onion, one dozen whole black peppers, one blade of mace. Take any fish and sew it up in a new piece of cheesecloth fitted to the shape of the fish. Put in

NOTICE TO THE CREDITORS OF R. M. HENDERSON, INSOLVENT.
You are hereby notified that the court has appointed D. Paul Fortney an additor, to audit, settle and adjust my account as Receiver of the estate of R. M. Henderson, an insolvent, and make distribution among the creditors of said the office of Fortney & Fortney, attorneys. In Bellefonte Borough, on Wednesday, the 24th day of June, 1908, at 10 o'clock a. m., when and where you may be heard. If you so desire.

J. K. JOHNSTON, 224 fitted to the shape of the fish. Put in the water and heat slowly for thirty minutes; then let it boil hard and fast for about ten minutes. Unwrap and serve with drawn butter made from the liquor in which the fish was cooked and add to it the juice of half a lemon.

of mushrooms and wash them well in signed.

CLEMENT DALE. with two ounces of butter, one-half of a teaspoonful of salt and a little white pepper. Stand them over the fire until EXECUTORS' NOTICE. thoroughly heated, then turn into a shallow baking dish and break over them sufficient eggs to cover, being careful to keep the yolks whole. Sprinkle over the top stale bread-crumbs, dust with salt and pepper and bake in a quick oven-for five minutes.

Notice is hereby given that letters testamentary on the estate of S. Lundy Lucas, late of Union Twp. decased, have been issued to the undersigned. All persons knowing themselves to be indebted to the estate are requested to make immediate payment, and those having claims against the estate will please present them duly authenticated to the undersigned.

EDWARD M. LUCAS, CAROLINE LUCAS, CAROLINE LUCAS, Executors, Serve with buttered toast.

Countess Vera Tolstoy, a daughter of the Russian author, is said to be much interested in America. She possesses considerable literary ability and has written frequently for Russian periodicals. The first of her sketches, translated into English, however, is an account of an imaginary visit to this country.

Don't fail to remember that the conversation at the family table should be general. Little pitchers have big ears, and that they are especially receptive at mealtimes is a scientific fact.
