Miss Theresa Watson, of Bellefonte, was seen on our streets Sunday eve.

Please don't forget the festival on Saturday evening the 20th; all are cordially invited to attend.

Many a man who is too proud to beg isn't too honest to steal.

HOWARD.

One of the heavy wind storms of the early summer blew down the smoke stack of the roller mill of W. H. Long, and he replaced it last week with a much more substantial one. The raising of it was something of an engineering feat and was successfully accomplished without serious mishap by Mr. Long, and his competent crew: John Wetzel, Reuben Lucas and Wm. B. Wilson.

Mrs. R. C. Leathers entertained friends from Easton last week.

Down on south Walnut street, John Boone is having his cozy cottage home repainted, and William Schenck is pushing along his new brick house.

Charles Confer has nearly recovered from his severe attack of rheumatism, and is able to look after his busy crew of painters and paper hangers.

Miss Clara Kline, one of the most successful teachers among the many which Howard has furnished to this state, is spending a part of her vacation with her parents, the venerable Squire S. F. Kline and wife.

The new brick surface gutter in front of William Weber's home is the first of its kind in the borough and is a model to all other property owners.

Children's Day at the Evangelical church last Sunday netted something over ten dollars for mission work, and was a fine success in all respects. The program was long and was most creditably rendered.

Prominent building contractor John Coter, of Harrisburg, who made such a success of the Pennsylvania State Building at the Chicago Exposition, was a visitor last week, attending the celebration of the seventieth birthday of his brother W. B. Coter, a short distance above town.

The basket lawn party at the home of George Eby, just outside the borough, last Friday evening, was greatly enjoyed by a lot of fine and well behaved boys and girls. Proper plays and games, music, an appetizing feast, and general enjoyment filled the evening and sent the youngsters home at an early hour, as happy as larks. The following named participated: Clarence Eby, Charles DeHass, Will Neff, May Eby, Eva Neff, Ward Confer, Helen DeLong, Earnest Neff, Willis Thompson, Gilbert Neff, Anna Eby, Leroy Eby, Gladys Halter, Nellie Confer, Myrtle Paul, Walter Hotter, Elfreda Confer, Margurite Kane, Russell Wagner, Gertrude Thomas, Mary Weirick, Helen Weber, Mable Conier, George Pletcher, Howard Paul, Kline Wolf, John Williams, Bertha Kline, Irvin G. Lucas took a day off and visited Bellefonte.

The Howard B. B. C. found itself again at Mill Hall, Wednesday, and so did the Mill Hall club find them, "good and plenty." Five to three in favor of the "dillonaires" is the record and this after a hot fight of twelve innings. The Mill Hall fellows were no mean antagonists and made our boys extend themselves to the limit, and they played real ball with a vim and rush, and correctness of judgment, and quick wit that would have swept the board against many a crack team in the larger leagues. Davoran, of Lock Haven, was umpire.

Scotac Regions Rich.

The Lock Haven Express says:—The mountainous country known as the Scotac region is rich in the abundance of fire clay of various kinds and of soft coal is an undisputed fact. For several years lands in this section have been successfully worked, turning out some of the finest products the world has ever known.

Luther M. Patterson, of this city, has just returned from a prospecting tour in that section, where he owns extensive belongings in connection with N. Burrows Bubb, C. LaRue Munson and W. R. Kreamer, of Williamsport. These lands have been inspected by Geologist

Isaac A. Harvey, of this city, as well as a geologist of New York city, and both these gentlemen were confident that these lands were underlain with an abundance of fire clay and soft coal.

We regret to learn that Will Fisher, only son of Rev. Dr. W. E. Fisher of Shomokin (former Lutheran pastor at Centrehall) is lying very low at his home in Shamokin. The young man had been suffering for several years from heart trouble, and a private letter informs us that his end is nigh. He is a graduate of the college at Gettysburg and had a bright future before him.

Pennsylvania Railroad Bulletin.

JUNE ON THE GREAT LAKES.

Restful, delightful, interesting and instructive, there is no trip like that on the Great Lakes, those inland seas which form the border line between the United States and Canada. And June is one of the most charming months in the year in which to take the trip.

For comfort the fine passenger steamships of the Anchor Line have no superiors. As well-appointed as the palatial ocean-greyhounds which plow the Atlantic, their schedule allows sufficient time at all stopping places to enable the traveler to see something of the great lake cities and to view in daylight the most distinctive sights of the great lakes, and the scenery which frames them.

The trip through the Detroit River, and through Lake St. Clair, with its great ship canal in the middle of the lake, thence through Lake Huron, the locking of the steamer through the great locks at the Soo, and the passage of the Portage Entry, lake and canal, across the upper end of Michigan, are novel and interesting features.

The voyage from Buffalo to Duluth covers over eleven hundred miles in the five days' journey. Leaving Buffalo, the steamships Juniata and Tionesta, make stops at Erie, Cleveland Detroit, Mackinac Island, the Soo, Marquette, Houghton and Hancock, and Duluth.

The 1908 season opens on June 16, when the Steamer Tionesta will make her first sailing from Buffalo.

The Anchor line is the Great Lake Annex of the Pennsylvania Railroad, and the service measures up to the high standard set by the "Standard Railroad of America."

An illustrated folder giving sailing dates of Steamers, rates of fare, and other information is in course of preparation, and may be obtained when ready from any Pennsylvania Railroad Ticket Agent, who is also prepared to book passengers who may desire to take this trip through the Great Lakes and back.

You're Cheating Yourself

Would you, for a day, go without Mapl-Flake, if the price was ten cents? Would you lose this Maple flavor—lack this perfect food—were it not for that 5-cent difference?

Let us explain this point of economy—the only possible point between us. At an even price you would choose Mapl-Flake. So would everybody. All like the Maple syrup, in which this food is cooked. All like the way we prepare it. But some flaked foods sell for ten cents. Some because they are corn, and corn is cheap. Some because of a cheaper process. But please figure the cream. That costs as much on a poor food as a good food. And it costs more than the food. Add the cream cost to the food cost, and see how little you save. Then measure the food by its food value—not by weight. Mapl-Flake is all food because it all digests. That is true of no other food. The main expense comes in making the wheat digestible. We spend 96 hours in preparing Mapl-Flake—in cooking and curing, in flaking and baking. Yet flaked foods can be made in 18 of 20 hours. We spend all that extra time to separate the atoms so the digestive juices can get to them. That is essential. Every food expert knows it. Suppose you save five cents per package, and the food only half digests. You are losing the other half. But that isn't all. All of the wheat which doesn't digest will ferment on the stomach. It leads to digestive disorders.
