The harvest: hands seem very scarce. Every day one can see some farmer seeking hands for harvest and haymaking. It may be due to the fact that work is hard and pay too little. Mrs. Shook, who took very sick while attending the funeral of Mrs. Henneman, has improved since then and is able to be around again. Jerry Shunk, who was at the hospital to have his eye treated, has returned home. The eye was entirely removed as the piece of steel could not be taken out. PORT MATILDA.

Children's day services at the U. B. church at Black Oak, on Sabbath evening, June 21st, was an interesting affair; the plan of exercises was a showing of interest. The festival and box social held in Shady Dell on June 13th was a successful affair both in attendance and revenue collected from sale of refreshments. The dry weather is causing a falling off of the young fruit, more especially the apples. Sam Osman, dep'ty. p. m., says the merry widow hats are in some ways useful but he don't admire them after they are worn one day in the hot sun, with flowers dried up gives the hat a seedy appearance and—

ZION.

The Children's service, on Sunday evening, was a success and was well attended. Jacob Transeau has gone to Hecla Park, where he will camp, during the picnic season and conduct a candy stand. Although our base ball team was defeated by Hecla by the score of 3 to 0, yet it was no disgrace as our boys played good ball. Haymaking has begun in full blast. Otto Corman and sister, Eva, Sundayed with Mrs. M. Corman. Services in the Lutheran church next Sunday evening instead of in the afternoon. Some men are so convinced they are going to wake up some morning and find themselves famous that they can't sleep. A man is naturally more settled after he is married. His wife generally settles him.

HOWARD.

Mrs. S. Cameron Burnside, of Philadelphia, has returned from a delightful visit of some months in London, where her daughter is a student, and in Paris, and is summing with her sisters in their old Lauth home, on the furnace bank. Mr. and Mrs. John Wetzel and family were absent from town on Saturday and Sunday, in attendance at the funeral of Mr. Wetzel's brother Curtin J. Wetzel, who died at Lock Haven last Thursday. Ada Bowes, of Hazleton, and sister Carrie, who has been sometime absent, are welcome visitors in town, at the home of their parents. Miss Edna Keber, of Lancaster, South Carolina, has come north to spend a few months in her old home. Last week a little five-year old visiting grandchild, of Isaac Williams, got hold of a phial of iodine and attempted to swallow it, before it could be snatched away. Fortunately none entered its mouth and the net result is a large and painful burn on its chin. Chaperoned by Mr. and Mrs. John Weber and Mr. and Mrs. Wm. Weber, a goodly number of the Webers, young and old, took themselves off to a cozy nook along the Bald Eagle Creek, at one of the Weber farms about a mile below town, on Wednesday last, and had a jolly family picnic. Playing ball, visiting, fishing, loafing, and eating the loads of good things they took with them filled in the whole day of pleasure, both dinner and supper being enjoyed on the ground. Here is the list of happy participants: Mr. and Mrs. Wm. Weber, Dorothy Weber, Mr. and Mrs. John Weber, Helen Weber, Nellie Weber, Lauretta Weber, Walter Weber, Virginia Weber, George Hensyl, George Columbine, Mr. and Mrs. Thomas Thomas, Maud Thomas, Gertrude Thomas, Weber Thomas, Mrs. C. M. Muffly, Anna Muffly, Josephine Muffly, Harry Muffly, Miss Kurtz and little niece, of Williamsport, are pleasing guests of Dr. Kurtz's home. T. A. Schenck, A. A. Schenck, David Holter, attended the meeting of Sons of Veterans, at Williamsport last Thursday. Miss Jessie Burcher, of Williamsport, is visiting the Misses Bowes at their pretty home on Walnut street. A carload of cows was shipped from our station recently. The water authorities of this borough cleaned up the reservoir handsomely last week and last Monday morning completely finished the pipe system through-out. Not a town in the State has better nor cleaner water than Howard. Mr. and Mrs. A. G. Hill, after entertaining friends from New York, Buffalo, Beech Creek and DuBois, last week, are having a week's-end visit with friends in Pittsburg. A number of our young people took part in the festival of the Disciple church at Romola, on Saturday evening, and report an enjoyable time. Harry Williams, of Altoona, and his brother H. L., of Pittsburg, with their families, are visiting their parents Mr. and Mrs. Isaac Williams. Howard township supervisors and roadmasters are doing their best to repair the considerable damage done to the roads by the unusually severe rains of last spring and are having good success. More power to them. The sale of household effects by W. H. Holter, Saturday afternoon, was well attended. The excellent condition and spotless cleanliness which marked the articles offered for sale warranted better prices than were secured in some cases. Chester A. Moore, one of the active sports of our ball club, scored a badly sprained ankle in the tussle with Mill Hall on Thursday, and is thoroughly out of the game for the present. Many of our townspeople took in portions of commencement week at State College, and one and all were delighted with what they saw and heard. Merchant C. C. Lucas is entertaining his mother and sister. The good reputation of our Howard mechanics is attested by the fact that Wm. P. Mahaffy, of Clearfield, has employed Contractor Harry C. Holter and crew to roof his large hotel in Clearfield. Our club on Friday defeated the Snow Shoe team on the S. S. field by a score of 3 to 2, and on Thursday last the Mill Hall boys came to Howard and went down and out, after a good, sharp, strong fight, to the tune of 6 to 1. And this by no means reflects upon the other side, for they did their best, bravely and willingly, and they did it well but the Howard team was simply too many for them. These two victories place the "Millionaires" at the head of the league, and there they stand alone. More than this they have earned their position by the best sort of individual and magnificent team work. Every man doing, in his own place and his own way, the best that is in him, and standing for every other man, and all standing for each one, in a spirit of fraternal good nature, each sinking his own personality and his own grievances if he has any, in the welfare of the team. If a fellow makes a misplay or even a bad play, no one guys him nor sneers at him even by a look but from all parts of the field come "Never mind that Bill, we'll make it up next inning," or some other word of good cheer and encouragement, and this good fellowship is the secret of the fine team work. In addition they all play clean sportsmanlike ball, preferring honorable defeat to nominal success gained by foul work of any kind. Howard is justly proud of her representatives in the league. On last Saturday the Howard team played Orvis two games upon the Orvis field, and lost to them by the scores of 4 to 3, and 14 to 7 partly because of the absence of two of their best men, and a couple of the errors always possible even in the best of players or team, and also of course, because the Orvis boys played good ball. This leaves Howard at third place in the league.

ROMOLA.

Hurrah for the 4th of July! Here it comes once again. Quite a lot of people from here expect to go to Hecla Park, to see the ball game between Watsonstown and Milton. H. S. Young had the misfortune of losing a horse on Saturday, from colic; he is having all kinds of hard luck lately. The ball game on Saturday afternoon, between our small team and the upper Marsh Creekers, came out in favor of the Romolas. The score was 11 to 7. The upper M. C. boys had three young men from Pittsburg, and their pitcher and catcher from Howard, but we soon showed them what we could do in the last inning. The festival on Saturday evening was a success. Everthing sold and they did not have enough. The Blanchard band furnished the music. John Whippo and wife, of Wilkinsburg, left for home on Saturday after a visit at the home of Peter Robb. Alby Quay intends to go to the woods, on Monday. Our base ball team expects to play another game, on Saturday.

Pure Maple

We are the largest buyers—so we are told—of Vermont Maple Syrup. All our wheat is cooked in it before it is flaked. Our object is that incomparable flavor. To make Mapl-Flake the most delicious—as it is the most digestible—of all cereal foods. Taste is of tremendous importance. With children for instance. The food that is best for them often needs to be forced on them. But they beg for Mapl-Flake. Was there ever a child who did not like maple sugar? The more Mapl-Flake a child eats the less it will eat of food not so good. Wheat is the perfect food. But wheat, in most forms, is only partly digestible. It consists largely of starch. And starch, to be digestible, must be made soluble. The particles must be separated so the digestive juices can get to them. That requires a process of 96 hours, and Mapl-Flake alone employs it. Our wheat is steam-cooked for six hours; then cured. Then flaked so thin that the full heat of our ovens gets to each atom. Then the flakes are toasted for 30 minutes in a heat of 400 degrees.

This process is expensive, but we know it to be essential. The result is, every granule of starch is separated. Every atom is made digestible. The food is all food. That is why Mapl-Flake is the most economical food, though a package costs 15 cents. The cream costs no more than on 10-cent foods, and cream is the main expense. So please don't go without the food that you like best, thinking to save five cents. "It's All Food"

Pennsylvania Railroad

Bulletin. JUNE ON THE GREAT LAKES. Restful, delightful, interesting and instructive, there is no trip like that on the Great Lakes, those inland seas which form the border line between the United States and Canada. And June is one of the most charming months in the year in which to take the trip. For comfort the fine passenger steamships of the Anchor Line have no superiors. As well-appointed as the palatial ocean-greyhounds which plow the Atlantic, their schedule allows sufficient time at all stopping places to enable the traveler to see something of the great lake cities and to view in daylight the most distinctive sights of the great lakes, and the scenery which frames them. The trip through the Detroit River, and through Lake St. Clair, with its great ship canal in the middle of the lake, thence through Lake Huron, the locking of the steamer through the great locks at the Soo, and the passage of the Portage Entry, lake and canal, across the upper end of Michigan, are novel and interesting features. The voyage from Buffalo to Duluth covers over eleven hundred miles in the five days' journey. Leaving Buffalo, the steamships Juniata and Tionesta, make stops at Erie, Cleveland, Detroit, Mackinac Island, the Soo, Marquette, Houghton and Hancock, and Duluth. The 1908 season opens on June 16, when the Steamer Tionesta will make her first sailing from Buffalo. The Anchor line is the Great Lake Annex of the Pennsylvania Railroad, and the service measures up to the high standard set by the "Standard Railroad of America." An illustrated folder giving sailing dates of Steamers, rates of fare, and other information is in course of preparation, and may be obtained when ready from any Pennsylvania Railroad Ticket Agent, who is also prepared to book passengers who may desire to take this trip through the Great Lakes and back.
