It is believed the snake entered the house by climbing up a grape arbor, which reached very near a window. A physician was called. It is believed that the reptile was a blacksnake.

# THINKING

that you will finally order your mill work here is a good idea.

But wake up! Don't stop at "thinking" things. DO THEM.

It will not cost you a penny more to talk it over now than later on. You need not order till everything is ready.

But send us your plans—your bill—for our estimate. You will find that many things will come out when we get together about it, that you hadn't thought of before. Many little economies will suggest themselves. Improvements will come in sight.

These are things you ought to know. And we will make a bottom price on all the lumber you need.
