HOWARD.

Mrs. Reuben J. Snyder, of Niagara Falls, is spending some time with her sister, Mrs. Walter L. Cook.

Everybody is hoping that the county commissioners will put themselves in a position to build a good iron bridge over Lick Run at a point near the planing mill of W. H. Long, just within the borough. It is upon a road which is very much traveled by the general public, and is one of the cases in which the cost should justly be borne by the county.

The new house of Henry M. Confer is making fine progress, and will be ready for occupation before frosts come.

Street commissioner Reuben Lucas is again able to be about town in a slow way, and take note of the several places which will claim his attention when he has fully recovered his strength.

Captain Pearl Thomas's sprained ankle gave him quite a limp yet last Saturday, but that didn't prevent him from doing his full share in the great trouncing his team gave the Snow Shoe boys.

The McKeesport school board prohibits smoking by its members during sessions. Our borough council, including the burgess, might well follow so good an example.

Edward Gardner, of Howard township, had a most unfortunate accident last week which may possibly result in a life long lameness. While standing in front of the cutter-bar of a mowing machine, the horses started and the flying knives caught his ankle just above the heel and severed all the tendons and ligaments, cutting even into the bone. He is improving under the care of Dr. Kurtz and student George Hensly, but it would be a miracle, almost, if they could restore his leg to its former normalness.

The many friends and admirers of Rev. Dr. Laurie missed him from his pulpit again last Sabbath evening, but are hopeful that his present rate of recovery may enable him to be with them at the next appointment.

Since some of the men of the borough and vicinity have become students at the State College, the social relations between the College and Howard people have materially increased. They are a well-mannered set of fellows and are welcome visitors, even in greater numbers.

Miss Christie Sween, of Williamsport, and Mrs. H. F. Sigelco, of Silver Creek, N. Y., are guests this week at the home of Reuben Lucas.

One of the fine evenings of last week a few of the enthusiastic base ball fans of the town gave a chicken and waffle supper to the local club, at the Howard House. Host and hostess McMurtree lived up to their fine reputations in the matter of "chicken fixes," and an enjoyable time was had, in appreciation of the good work of the team.

Oscar M. Lucas, of Altoona, yielded to the double attraction of a visit to his mother, and the big ball game, and spent last Saturday and Sunday at home. He was accompanied by Miss Allie Moore and little niece, of the same city.

It is a pleasure to learn that little Russell Holter, who was operated upon for appendicitis at the Altoona hospital, gives promise of recovery.

Clinton Baines, Herbert Gray and George Tanner found diversion and entertainment by canoeing it down Spring Creek and the Bald Eagle, from Bellefonte to Howard last week, and camping for a few days in one of the pretty nooks along the Bald Eagle below town.

Miss Maud Keagle, of Avis, has been visiting recently among her friends of the "Jolly Ten," a social club of our young ladies.

Up to this time the Howard base ball club never played a better nor cleaner game than that against Snow Shoe, on our field last Saturday. They were in fine health, excepting Capt. Thomas's crippled ankle; and the hard training of the last ten days it so had developed and improved both individual and team work, until they felt themselves the masters of any team in the league, and their

good opinion of themselves was amply justified by the magnificent game they put up against the big and plucky fellows from Snow Shoe who came here in full confidence that they were going home with the scalp of the Howard boys hanging at their belts, and bringing several scores of their townsmen with them to witness their victory, and they were no mean opponents. Everybody realized that the game would be fought to the uttermost from start to finish, as the relative positions in the league of the two clubs gave the result unusually large meaning to each, and the presence of umpire Donohue insured absolute fairness, and absence of all trickness. The result, however, was astonishing to everyone, and disappointing to those who like to see a close game. From "Play Ball" to the end of the sixth inning, when manager Kelley, of Snow Shoe, walked over to manager Joe Deihl, of Howard, and threw up the sponge saying he had enough, the play was fast and furious, but the Snow Shoe boys were not in sight of a score at any time. "Fourteen to nothing" was what the score board said, and every Snow Shoe man handed over his scalp to a Howard player with all effort to smile which was painfully short of success. The crowd at the game was larger than ever seen on the field before, and among them were many prominent lovers of the game from all along the line from Snow Shoe and Bellefonte to Lock Haven. Not an unpleasant incident marred the game at any point.

Roy Snook, one of our Livonia boys, has taken unto himself a wife in the person of Miss Lottie Meyer, of Tylersville.

Leslie Stover was very unfortunate last week. Sunday night he had a very severe attack of acute indigestion and was just getting over that when he was accidentally hit on the forehead while helping to cut a tree, and had it not been for his hat and thick hair he would probably have lost his life.

Making Good.

There is no way of making lasting friends like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunks.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have gone by the board and are never heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood ailments, its superior curative qualities are soon manifested; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, sour breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrap—no secret, no hocus-pocus humbug; therefore don't accept a substitute that the dealer may possibly make a little bigger profit by. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve line it is unequalled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—only three a dose. Much imitated but never equaled.
