For years Mr. Garman had been in Bellefonte, and recognized as one of the town's most progressive citizens. When he lived here permanently he took a great interest in everything that would lead to local prosperity. For the present he will take it easy by cutting off copers.
—Arthur Dale, son of Mr. and Mrs. Clement Dale, of Bellefonte, is now a student in Wittenburg College, at Springfield, Ohio. During last summer he worked in his father's law office and fell in love with the profession, and finally decided to make that his work. His going through college is to prepare him to get over the knotty places that are often found in the law. He is a studious young man, and there is no question but what he will make his mark before the bench and bar. His friends wish him success.

At the station they took on the Aaronsburg cornet band, one of Pennsylvania's best musical organizations. At Mill Hall they were attached to the Eagles' special train from Philipsburg. They had a fine day at Jersey Shore and all came home delighted with the outing.
—New concrete walks from the spring out Water street to the railroad crossing is one of the decided improvements in town. A new walk of similar material should be put down along the spring and then the walks out that way would be among the best in the town. Frank Galbraith on Bishop street has made some very decided improvements of the same character. In addition to the walks about his property being of concrete, he has built his porches of the same material.
—Students are passing through town daily on their way to the Penna. state College to be prepared for the coming opening of the fall term. From reliable information we learn that the Freshman class will be somewhat larger than last year. In the other classes there will be a slight falling off on account of students not being able to raise the funds on account of the money stringency during the past year. But even taking that into consideration, they are assured of a larger body of students in attendance than they had last year.

Never before in this county have we seen the chestnut trees crowded with so large a mass of burrs as the trees now exhibit. We noticed one tree, a few days ago, up Buffalo Run, that was covered with burrs as if by a blanket. These toothsome nuts are likely to be unusually plenty this year.

An Old Timer.
We are given to refer to ye olden days as having passed away, and pass away they will and must, it is so ordained. Here and there, there is still one on terra firma while legions of others are beneath the sod. We are led to these musings by meeting, the other day, one of the old stagers, in the person of William Witmer, of Benner township, who, next March, will have rounded his eighty seventh year, and is still able to be about his home premises, not concerning himself any more about the outside world, and keeping close company with the inevitable reaper, the puffing of which he enjoys beyond anything else. Mr. Witmer tells us he does not intend going from home any more, not even to Bellefonte, where he was wont to visit about once a day, but having been in this town for over one and a-half years, Mr. Witmer will not, henceforth, bother with business affairs, and while he owns no less than half dozen farms, will no longer look after same, but will let the "wide, wide world wag as it will." Besides much real estate, he has no mean figure in ready money, and is reported to be being worth over \$100,000. All these worldly goods Mr. Witmer gathered by industry and rare economy. His mental faculties are well preserved, and being of robust build, a swing of his arm with a fist at the end, would tell like a clout from Sullivan's paw. Mr. Witmer declares he will not bother about anything any more—a resolution that many, old or young, would not put into life's platform. If you wish to see him, at last contented, congenial, call at his gate, where the latch string is out, and have a talk and smoke with "Billy."
