### FROM MISSOURI.

We are having fine fall weather, and the farmers are making good use of it in getting their corn away. We had some pretty rough cold weather here last week, but it has got warmer again. There is still considerable corn to husk. Corn is about one third crop, but it is all solid, no soft corn. There will not be much stock fattened here this winter on account of the scarcity of corn for market. It will take nearly all the farmers have to feed their stock through the winter, consequently will be very little corn for market. On account of the weather there was not as much wheat sown this year as usual and what was sown late is rather poor stand. Early sown wheat looks fairly well. Well, Mr. Taft won the day and I hope he will give us a good administration, and better trusts. Yours Respectfully, A. R. ALEXANDER, Buffalo, Mo.

### PLENTY OF EXERCISE NECESSARY.

Pleanty of regular exercise must be taken in order to keep the body in healthy condition. Any excessive or unusual exertion, however, is sure to cause stiffness and soreness of the muscles and joints. To counteract this defect there is nothing better than Sloan's Liniment. Lay it on lightly where the muscles have been strained; it requires no rubbing for it penetrates right to the bone, relieves any congestion and inflammation and makes the muscles elastic and pliant. Sloan's Liniment is a great boon to athletes, for it not only relieves pain and stiffness, but it is an excellent remedy for sprains, cuts, bruises and cramps. Mr. J. A. Price of Tusculum, Ala., writes: "I am an engineer on the Southern Road from Chattanooga to Memphis, Tenn. The continued elevation of my arm upon the throttle gives it a tired feeling when on a long journey, and there is nothing that will take the soreness out like Sloan's Liniment, and I keep a bottle in my grip always."
