HOWARD.

The fine winter weather is holding on in a way to delight all winter lovers. Bright, sunny afternoons are the rule, cutting the snow somewhat, and giving skaters royal amusement which they enjoy to the limit, and the sharp frosts (as low as 12 deg.—sometimes) keep the sleighers and skaters in good cheer. The real ice harvest is waiting for a little deeper freezing, though a few loads of ice have been seen on our streets.

Col. W. F. Reynolds and his handsome big auto were seen on our streets one day last week.

David E. Holter is again able to move about slowly though looking a little the worse for his severe tussle with pneumonia.

Music by the Milesburg orchestra, recitation by Miss Lula Stover and others, singing by the crowd, and one of Mrs. Wetzler's good suppers filled up the evening, brought going-home time all too soon, and elicited an unanimous vote that nobody ever had a better time. Agents of the National and State agricultural departments are carefully inspecting the stock in this section of the county, with the purpose of saving the farmers from the costly effects of the apthous fever plague. Dr. Mayer is in charge in Liberty township, Dr. Johnson in Walker and Dr. E. P. Yeager in Marion, thus giving all farmers and the whole community a feeling of assurance from the disaster which a single lodgement of this fearful disease, might bring about. So far as we can learn no cases of the trouble have been found in the townships named. Of course it is understood that this work burdens no cost whatever upon the individual farmer, as the inspector's expenses are all paid out of the State and United States treasury, even if infection should be found elsewhere, and all the live stock in the vicinity were condemned and killed, the owners would receive pay for them at real value. Under such circumstances everyone should heartily welcome, and give cheerful assistance to these inspectors, and it is a pleasure to learn that such courtesy has been the rule. In a very few cases, however, questions have been raised and objections urged against the inspection, and sometimes in language characterized by forcefulness rather than politeness. This is much to be regretted, and must come from lack of full knowledge of the real facts. It should be remembered that these gentlemen are officers of the law, both of the State and of the United States, and are only carrying out the instructions of their superior officers, and that their work is solely in the best interests of the general public, and of the private individual as well. There is not the slightest use for objecting, and it only makes delay and unpleasantness. The sooner the inspections are made and the reports sent in, the sooner will the quarantine upon the county be raised.

Welsh, of Romola, after a long illness and great suffering, was called from earth Wednesday of last week, and was buried in the Disciple burying ground on Saturday morning; Rev. W. H. Patterson had charge of the services. Mrs. Welsh was just seventy years of age, and a daughter of the well known Jacob Brickly, of Curtin township. Her husband and eight grown children survive her. The Hon. J. C. Meyer has a good many friends in this vicinity who are not wholly in line with his political views and affiliation but they are all pleased to note the compliment implied by his appointment to three of the most important committees of the House, and to a fourth one not so important but upon which he can be very useful. It is a rare honor for a new member of the minority party to be placed upon the appropriation committee.

The coming graduating class of the borough high school will hold a "Sock Social," at the school building, at 7:30 tomorrow, Friday, Jan. 29. While this function is largely social in its purpose it has in it some of the elements of a compliment and benefit to the class, as the money received will be devoted to paying the general expenses of the graduating exercises next spring.

Undertaker Wm. H. Neff was seventy-seven years old Tuesday of last week, and his wife arranged a little family gathering in his honor, which passed off very pleasantly.

Then he has been a hard worker always, and he soon had the privations of army life, including a long term in Libby Prison. Mr. Neff carries his years with great vigor.

The meeting of farmers at the school building last Saturday was altogether successful. Notwithstanding the cold rain and fog, more than sixty interested men and women turned out to hear Prof. Watts, and were well repaid for their trouble. Prof. Watts is a forceful and convincing speaker, and he soon had the audience asking questions that showed not only their interest in it, but their intelligence upon the subjects discussed. There is little doubt that good will come of it, to the Canning Co. and to many individual farmers as well. The company held its regular annual meeting in the afternoon and elected the following named directors: J. Will Mayer, George Weaver, Henry Thompson, Albert Schenck, David Kobb, Job D. Deihl, W. F. Leathers, R. P. Confer, Jackson Kline.

Two sled loads of young people from here drove to the local teachers' institute at Blanchard, last Friday evening. One carried the students of the senior class of our high school, and the other took sixteen of "just our bunch of girls." Both parties report a good time and an interesting institute. Prof. Werrick made an address, and Miss Lula Stover gave some of her pleasing recitations.

Auctioneer Hayes Schenck spent last week in Altoona, plying his calling in the sale of a grocery store.

Dr. Kurtz's new auto will be a great comfort and convenience in his county practice.

The nominating conventions on Saturday night were both more largely attended than usual, and good nature prevailed in each, though there was lively interest displayed over some of the nominations. Diehl; Council, John Wagner, Wm. D. Henderson; Overseer of Poor, Harry McDowell; Auditor, Howard Kobb, Collector, M. L. Beck; Treasurer, E. Yearick; Republican—Judge of Election, Lot M. Neff; Inspector, John Turner; Burgess, George Leathers; Directors, H. C. Holter.

Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weakness and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong protective influence upon each of its several ingredients worth more than a number of ordinary non-professional remedies. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this Favorite Prescription. It will not perform miracles; will not cure tumors—the needle will. It will often prevent them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

Miss Florence also went to Liden Hall to spend a few days with her friend, D. M. Campbell. All returned home after having a fine time, and they all spoke very highly of the drive. Come again girls to visit our little town.

After Beer Drinkers. Mayor Stephens, of Lock Haven, is after one of the fire companies in Lock Haven, and recently fined a bunch of them for drinking beer on a Sunday afternoon in the fire company's quarters. The offenders are opposing the payment of the fines and as a consequence things in Lock Haven are generally mixed up.

The people who sneer at us would probably be very much surprised to know what we think of them.
