HOWARD.

With the mercury marking down from 20 to 22 deg, for two or three mornings in succession, and the breezes, coming straight from the northwest at thirty miles an hour, with icicles in their teeth, old winter seems to be linger-ing in a very determined sort of way; garden digging is suspended, and top coats at a premium.

The Mesdames Commerford; afteria winter's absence, with members of their families, opened their pleasant home on the old furnace bank this week.

Oscar Kling and family, of Altoona, made an Easter visit with Mr. Kling's father, Joel Kling.

Comer Shope is building a home for his bride on the portion of his father's lot nearest the railroad.

Mr. and Mrs. John Mokle spent Easter Sunday at their old home, Lemont.

The heavy winds of last week, particularly severe on Wednesday, wreaked havoc, in minor degree, in several parts of our town. Some trees were blown out by the roots, others were split and mutilated, windows were blown in, corn cribs overturned, hatches blown away from large roofs; small roofs blown partly off, boards from off the tops of piles sent whirling for rods over fields, and general scatterment of everything that was loose and some things which were

supposed to be securely fastened. Mrs. George E. Eby and family started for their new home at Portland, Oregon, on Monday morning's train. Miss M. H. Lucas visited Bellefonte

friends over Sunday and Monday. Sheriff Hurley was a business visitor

in town last Friday. Wm. T. Charles, of the B. E. Division office at Tyrone, was in town on R. R. business last Friday.

W. E. Thompson, who taught the Fairview school last winter, arranged a very pleasing programme of exercises for the closing day last week, and the patrons of the school took much interest.

The hospitable homes of our town seem to have attractions for the State College people, and several of them made Easter visits here: Paul Bennetch was a guest

of Dr. McIntyre; Orlando Bowes visited with the family of his uncle Thomas Bowes; C. F. Harrison was a guest of the Leathers brothers; and Ralph E. Thomas and H. L. VanKeuren were entertained at the home of C M. Muffley.

Misses Della and Laura Williams visited their brother S. S. Williams at Pleasant Gap on Friday.

Our High School closes its term this week and the "Commencement week" was inaugurated by a forceful bacca-laureate sermon delivered in the M. E. church last Sabbath evening, by Rev. W. H. Patterson, pastor of the Christian Chapel congregation at this place. On next Friday (tomorrow) evening the commencement will be held in the same building, and an elaborate programme has been prepared. Each of the twelve members of the graduating class will present a brief orations or reading, and music will be interspersed between the numbers. Rev. W. W. Rhoades will make the invocation. Rev. R. S. Taylor will pronounce the benediction. Edwin Erle Sparks, Ph. D., LL. D., president of Pennsylvania State College will deliver the baccalaureate address. This is the largest, and probably the youngest class our school has yet graduated. J.

C. Weirick, principal, and directors John P. Weber, president; Z. T. Wei-rick, secretary; Dr. J. W. Kurtz, treas-urer; W. H. Holter, J. F. Condo, and W. H.
