WOODWARD.

Clayton Snyder returned home on last Tuesday to pay his parents a visit after an absence of about five years.

Another deer was killed by dogs in this community Tuesday 13th. It was a fine doe, and was killed in Pine Creek near Adam Sheesley's. The dogs were taken from the deer by some of the hands employed on W. J. Smith's saw mill.

Why is it that when we have no need for wardens they are here, but when we need them as much as we did already this winter none are to be seen. This makes the third deer killed in this section that is known of. Hard telling how many more were added to the list unknowingly, and why is it that we citizens, when deer season opens in the fall, are only allowed to shoot a male deer with horns and yet when spring comes when the deer are poor and are in no shape to be run by dogs, the game commissioners sit in Harrisburg and let the deer be killed, not only deer with horns, but also does. Any person with common sense, that knows how foolish the game and fish laws of our commonwealth are, can readily see that some of the would-be-lawmakers don't know anything about hunting and fishing than a five-year-old child. How can they, when they go out with a couple kegs of beer and a few jugs of whiskey, whenever they go either hunting or fishing?

J. D. Snyder left on Monday for Northumberland county. He is general manager of that county for the Compressed Air Wonder Washer Co.

Motz & Stover's new sawmill arrived at Coburn last week, was brought to Woodward on Saturday and is now under construction. It will not be long until the whistle and the buzz of the saw can again be heard daily.

Late on the afternoon her son, Ammon, took her out driving till a late hour, then returned home when she was greatly surprised by finding the table spread with a good supper for all, and the house filled with people. After spending a number of hours together they departed leaving many presents in remembrance.

Clark Gramley transacted business in Lewisburg, Wednesday last.

Wm. Meyer, who was thrown from a load of hay some time ago, was taken to the Bellefonte hospital last week. It developed that no bones were broken, as Dr. Bright the doctor first called, had stated. Dr. Bright has been the successful physician of our town and vicinity for 25 years, his reliability is too well known to need comment. Persons of merely any and many sentimental principles cannot hurt his reputation.

A tea tax helped bring on a revolution in this country once—and might it not do it again? However, we will not exchange our flag exactly after it is over.

The new clothing store is now in full blast, in West Rebersburg, under the able management of a Hebrew. We have no doubt but that he will do a flourishing business.

Jack Hogan, of Williamsport, is enjoying Brush valley hospitality.

Several weeks ago Mrs. George Miller, while in Sugar valley assisting her sister to move, took sick and was too weak to be brought to her home. We are glad to state she has improved sufficiently to be brought home last week.

While our cemeteries are presenting a much better appearance than they did years ago; but, in the advanced age we are living now, some of our cities of the dead are in a deplorable condition, and is exciting a good deal of unfavorable comment and steps should be taken to improve the cemeteries and make them more inviting. It is a place we are all candidates for sooner or later; we will all get there and for this reason should be of general interest, and that interest should extend to the point where you join with others in demanding improvements. Indeed some of our burying grounds have the appearance of places near the cities where the words on a sign, tacked up in a conspicuous place read, "Rubbish may be shot here." Friends of the dead buried here, who live at other places should have no hesitancy in making a liberal donation towards the improvement and fencing of the church yards.

Having fine walks made, flower beds galore, sunken graves filled up, thorns and briars removed making it a veritable flower garden, where, while you walk therein, much of the bitter pang of death will be taken away, instead of a place for spooks, hooting owls, jackals, hawks and night prowlers, where grown folks walk around a mile or more to evade, and children taking their bonnets and hats in their hands run by even in daylight, like antelopes.

Lots of our rich young men demonstrate that the noodles are not all in the soup.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.
