Our town presents a picturesque appearance, the trees full leaved and in bloom, and to tell of all the delightful charms and beauties of the town would be impossible. This beautiful valley hedged in by mountains is admired by all visitors, and is fast becoming a summer resort. Dozens of visitors enjoy the summer here. Long years ago these charms were known to the dusky sons of the forest who roamed through these beautiful woodlands in quest of game, as we still plow up numerous arrowheads, relics of savage warfare—but these savages have long ago gone to their happy hunting grounds and their feeble descendants have taken up their abodes in far western lands.

Our town has well paved streets, and with shade so abundant that viewed from Sugar valley road or the surrounding hill, seems set in the midst of a forest.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs.
