A NEW ADDITION

ENDORSED BY GRAND JURIES

Every Convenience Will Be Provid-Those Having Anything to Do With the Court.

For the last ten years it has been evident that something must be done to the Centre county court house. Everything is practically in a deplorable condition, and should there ever be a fire in the house of justice there would be no end to future litigation in this county. The vaults are not fire proof, and even if they were, they are not water proof, as when the court room is scrubbed great care must be taken in not putting too much water on the floor for fear of it dripping through the wall into the vaults. Those who have seen the plans are charmed with the architectural effects and the completeness of the interior arrangements, and feel that the well known reputation of the architects will assure the citizens of Centre county a restored and enlarged court house -an object of pride to every one.
