FOR THE PUBLIC GOOD.

Editor Democrat:—The meeting of the road supervisors of the county, in Bellefonte, on last Thursday, was a movement in the right direction, and it is interesting how much interest was shown by the large number of those to whom is committed the important duty of taking care of the roads of Centre county.

The writer, though not a supervisor, was impressed with the unanimity of sentiment that prevailed in favor of better roads—and better roads will come as the result of agitation, if the supervisors once get rid of the pre-conceived prejudice against the automobilists, and heartily join with them in the good roads movement.

The roads are not being improved all over the state just for the benefit of those who ride in the motor car, but for all of us; and if they are made good for the automobilists, they will at the same time, be made good for the farmer, the physician, the minister, and everybody else, because everybody, to some extent, uses the public roads.

Very much credit is due the Motor Club for stirring up this matter, and the supervisors stand in their own light, if they do not co-operate with it, in this good roads movement.

The public roads are a public institution, intensely so, and there needs to be something permanently done upon them for the public good. Let us all stand together in this common interest.
