REBERSBURG.

On Saturday afternoon the Madis-onburg base ball team crossed bats with our home team and were defeated by the score of 15 to 8. It was an easy task for our fellows to do this, although the team had three Millheim players. The locals did very good hitting, and especially C. B. Mal-lory, who struck a home run. We claim to have the strongest team in this part of the county. Any one dis-puting this please give them a chal-lenge.

On Saturday the Directors of the Rebersburg Water Co. held their elec-tion in Henry Meyers' office. Nearly all new officers were elected for the coming year, and no doubt will give good service.

LAMAR.

Some of the farmers have finished their fall plowing, while others are compelled to wait for rain.

Quite a few from here attended the Clintondale-Nittany Sunday school picnic. All report enough to eat and a good time.

Miss Evelyn Williams, of Jersey Shore, attended the picnic Saturday last.

Listen for the school bells! Prof. Houseworth, who taught the Clintondale high school last term, will teach this term in the Jersey Shore high school.

We notice a verse or two in the Nittany items of last week which were sung by olden times. No. 2, and it reminded us of ye oblige times at school.

The band boys were beaten—they were not compelled to play, nor were they coaxed to play, and the scribe must remember that it is runs and not points that take the game. And it is not necessary for Lamar to go to Pittsburg for a pitcher. The boys are all at home and could not employ Hans Wagner as short stop, while playing with the band boys, for Hans always wants to be busy.

As only three of the band boys ever played ball before, perhaps the next time they will stay back behind See? But when it comes down to playing music what has Lamar? Not much. What has Nittany? Less yet. Any one who witnessed the game and saw the band boys throwing, would think the band was composed of sliding trombones, and they struck at the ball just as they do at some of the notes of their music, and never hit it. We do not think any one in the Lamar ball team would accept the position of hammering the cymbals, they all think they could not stand the noise, or the negro's place in the Repasaz band, as we have a bit of self respect and don't associate with that class. One of the band boys knows that Lamar has some music in it if it is the cupid of hearts song, and he is interested. But the ball team has decided to play no more kidish games.

Last Thursday night, to the honor of Toner Fisher, a peanut yarty was held at the residence of W. E. Fisher, where about 60 young people gathered and spent the evening. All report having had a good time. This being the first party of the kind this summer, every-body filled up on peanuts while they lasted, though one would think the pen-ut crop was a failure this season.

Last Saturday the Poormans again met and held their reunion in Kohlbecker's grove, about one half mile east of Snow Shoe intersection.

Joseph Breon, one of our long and peaceful citizens of Wingate, on last Wednesday moved from the house of James Davidson; all who assisted in the moving came home with a frown on their faces, while others, who would not lend this old man a helping hand, stood and looked on with a grin, as much as to say, "joy go with the fittin'." We all wish him a happy life in his new home.

Summer visitors have about all left for their homes in different places. Some of these people come here for the pure mountain air and water who at this period of the year love to be close to nature, while others were born and raised on these fertile farms but have found more lucrative employment in other parts but come annually and echo the folk lore "Home, Sweet Home."

Oldtime Hunting.

Some of Centre county's pioneer settlers may have a record something like the following:

There were once some experts with the rifle in Clinton county. In a re-view of the early history of Renovo and Clinton county, taken from the Weekly Record, of that place, in 1874, is the following item, which will be of interest to the local sportsmen: "Seth Nelson, one of the mighty hunters of the Susquehanna Valley, whose suc-cess won for him the name of 'Nim-rod' Nelson, was credited with killing, during a period of 27 years, 626 deer, 60 bear, 22 elk, 12 panthers and 4 wolves. Mr. Nelson resided at Round Island.

Mrs. Heaton, wife of the late Joseph Heaton, of Clearfield, was the guest of Charles Lucas and family, last week.

Runville was well represented at the Poorman reunion, held in Milesburg, on Saturday.

On Saturday a young man received a message from his best girl which ran like this: "Come up at once, the stove pipe is falling down." The young man was soon seen running at break-neck speed for the upper end of town, causing an exciting alarm in our villages, among the villagers. For further particulars apply to Charley R. Tribe, No. 496, I. O. R. M., of Miles-burg, will hold their second picnic on the old hunting ground at Yarnell. This day promises to be a very inter-esting affair as all of the old and young warriors, with their squaws, papooses and sweethearts, will be in attendance. A game of ball will be played between the married and single Indians. Refreshments of all kinds will be served by the squaws, while the Indian chiefs lie around the campfires and smoke and tell war-rior stories to the younger genera-tion. Corn, venison, acorns and roast dog will be in abundance, the corn being so large that one ear will be enough for a dozen hungry Indians. The Tribe extends a hearty "whoop" to one and all to bring a basket to the feast as the meat and acorns may be too strong for the American's constitu-tion.

Mrs. Michael Sennet and little daughter Azalea, accompanied the former's son Marlinus to Tyrone; he is at present attending the Soldiers Orphan school at Chester Springs.

There is a certain party in Wingate who is very sarcastic and inquisitive, always butting in other people's busi-ness in Runville, which does not concern them whatever. If they would tell the truth they would be thought more of. We wish to say to them from this time on—"keep mum."

Grains Crisp and Gigantic—

Eight Times Size

Puffed Wheat and Puffed Rice—the foods shot from guns—are eight times natural size.

They are four times as porous as bread. They are nut-like, crisp and brown

And they are digestible, for every starch granule has been literally blasted to pieces.

That's about all we can say. Cold type cannot describe them. There is nothing with which to compare them.

Puffed Wheat—10c

Puffed Rice—15c

These are the foods invented by Prof. An-derson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tre-mendous.

You will think the foods queer, and they are. But don't think that you will not like them.

Last month, there were seventeen million dishes served in homes that have found them out.

The folks who once taste them, demand them. The folks at your table are just like the rest.

Serve them one package and all will say, "Let us have those puffed foods always."

Then the guns are unsealed, and the steam explodes. Instantly every starch granule is blasted into a myriad particles.

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered: We have simply the magnified grain.

One package will tell you why people de-light in them. Order it now.
