FIVE REASONS WHY

YOU SHOULD HAVE A BANK ACCOUNT

Because—Your money is safer in Bank than anywhere else.

A bank account teaches, helps and encourages you to save, so as to increase your balance.

Paying bills by check is the simplest and most convenient method, as well as the safest, as your check becomes a receipt for the debt it pays.

A check book is more convenient to carry than a wallet filled with bills and coin, and if your check book is lost you can obtain another without cost, but if you lose your wallet it is a different story.

It gives you a better standing among business men to pay by check rather than in cash; to be known as having money in the bank strengthens your credit.
