Venerables in Evidence Just Now. On Monday "Uncle Daye" McCloskey, a literong woodsman of the sturdiest type, of Curtin township, came into town to see after his pension papers, and walked about the streets as nimbly and greeted his friends as warmly as if he were but sixty-one instead of more than ninety-one. On Wednes-day he took a long drive out to Cato, attended to the leasing of a coal mine and looked after other business with the same alertness and carefulness, and is little or none the worse for the

On Friday last William Gardner, of Blanchard, with his two daughters, Mrs. Mabel Morrison, of Eagleville, and Mrs. Bessie Shellenberger, of Jersey Shore, came up to visit his brothers, Andrew Jackson and Anthony Wayne Gardner. The aggregate ages of the three brothers is 243 years, or an average of nearly 81, and seen together they make a striking group of stalwart grayheads who by their manly qualities and clean lives command the respect of all who know them. The elder one, Andrew Jackson, will cel-ebrate his eighty-eighth birthday anniversary next Saturday, and bids fair to remain as a blessing and example to his family for many a year. The others, A. W. and William, though aged respectively 82 and 72, still consider themselves competent to do a day's work when necessary, and laugh

at those who call them old. On Saturday 'Squire Samuel F. Kline was seen repairing the plank walk in front of his residence, and when he had finished an observer would have been ready to say that he had lost none of the skill with which he handled the saw, square and hatchet in the days gone by, though he celebrate his eighty-ninth birthday

His hearing and sight are perfect, and he yet reads ordinary print without glasses, never having used them at all. On October 2, 1822, just sixty-seven years ago, he, in com-pany with A. J. Gardner mentioned above, was baptized in the Bald Eagle gle creek, just above the iron bridge on the road leading from Howard to Romola, by Rev. Nathan J. Incidentally they are all, with the ex-ception of one, members of the Disciple church, having been taken into membership in their early days by the Rev. Nathan J. Mitchell who was broadly known as the pioneer prescher of that faith in this section of the State, and have all been faithful advocates of its doctrines. Incidentally, too, they are all, without exception, life-long Democrats of the old clean, straight brand, some of them having cast their first vote for Gov-ernor William F. Packer, who though older than any of them, was brought up among them, right in this neighborhood, and was known to each of them in a close, personal and neigh-borly way. We revere them for their years, honor them for their virtues, and wish for them all such additions to their already long lives as the Master shall think best for them.

Daley's Fine Exhibit We are not a little proud in this neck o' woods that our neighbor, Col. John A. Daley, made the Great show-ing at the fair of all the farmers rep-resented. He had twenty-two exhib-its of farm produce, including coreals, vegetables and fruits, drawing first premium for most exhibits from one farm; and in addition drew seven first premiums upon single exhibits. This is a most commendable showing, and should not only be emulated but largely exceeded by farmers from a dozen other townships at next year's exhibition.

It has also renewed strengthened the unloading platform at the freight house. These improvements are most commendable and very much appreciated by our people and the many strangers who come to us daily. They do not, however, in the least mitigate the inexcusable failure to have a toilet room connected with the passenger station. It is unac-countable that the station which furnishes more passengers to the road than any other on it excepting the terminals and Bellefonte, should have been denied this absolute necessity for so many years. The little eight by ten smoke-befouled, bad-smelling old smoke-befouled, bad-smelling old stack of a station which has served the community for more than forty years, ever since the opening of the road, might be endured for a year or two longer if this real and crying need were supplied, even in a rough and unsightly way.

The Grim Harvestor Adam Hannon, an old iron worker of this community, died at the home of his daughter, Mrs. Wilmer Butler, in Curtin township, Tuesday morning, Mr. Hannon was born at Rock Furnace, June 13, 1825, and moved with his parents to Howard Furnace before he was five years old, and has made Howard township his home ever since. He raised a large family of children, some of whom have preceded him into the beyond, and others are scattered in various parts of the State. The only one now in this neighborhood is Mrs. Butler, at whose home he died. His health has been very feeble for several years, and he grew weary waiting for the end.

Roland Miller, a citizen of Curtin township, and a practical woodsman, died very suddenly in the camp of the job on which he was working, last Monday morning, located on Cherry Run, in Clinton county. At this writing nothing is known of the cause of his death. He left no family, never having married, and burial was made at the Messiah church, in Boggs township, on Wednesday.

A Corn Silo John M. Robb put up a first class silo last week, and has begun filling it with a crop of corn he grew for the purpose. This is the first silo in this section of the county, and we trust it may prove profitable to Mr. Robb, and start a development among our progressive farmers in this neighborhood of this economical method of caring for and disposing of the corn crop. has long been demonstrated by thousands of careful farmers that for that portion of the corn crop which is to be fed on the farm there is no other method of handling it so profitably and satisfactorily as through the silo

Charles N. W. E. Confer, route agent No. 1, knows this is so, for he ate the potatoes.
