There was a good bit of excitement on Saturday when two hounds brought two deer off of Nittany mountains and ran them the most of the following night. The point that the people did not approve of was, it is thought that one of the deer was shot while being run by the dogs, for there had been three on the mountain and the dogs brought but two to the valley, and there was a shot heard when the dogs were chasing the deer, before they came to the valley.

WHERE MILLIONS GET MILLIONS.

Million dollar fortunes do not come from the profits of fair trade; they come out of the speculation induced by special privileges granted by the law-making bodies under one plea and another, usually under the plea that such laws are for the benefit of trade; but the law maker does not live who is not fully aware that if one person or one set of persons is given an advantage under the laws, some other person or set of persons will be damaged to just the extent that the law benefits some other. He knows this, or he doesn't know enough to make laws for any people.

Normal Students.

Advertising Pays.

Fred Springer, an attaché of the Kinney Hotel, Towanda, Pa., is the busiest man in that town since he advertised for a wife. Up to Wednesday he had received 787 letters, 200 telephone calls and between answering the communications, inclosing his photograph and his other duties, he is busier than a "hen drover." At the rate Mr. Springer's business is increasing, unless he begins to backfire by marrying, it will be necessary for him to establish a literary bureau and an art gallery because his matrimonial business is developing like an endless chain.

Advice to Parents.

Parents often wonder who or what has ruined their boys. They have been in school every day, but the teacher either does not teach them any lessons in morality or else his teaching is a failure. Truth is the boys are on the streets from the time school closes until late at night. The street corner is the best place in the world for teaching vice and crime, nearly all the bad language and idle, vicious habits of boys are taught on the streets at late hours in the night. Teachers may be able to accomplish a little in counteracting these evil influences, but much of their labor is in vain until parents co-operate with them to keep their boys off the streets.

Nature makes the cures after all.

Now and then she gets into a tight place and needs helping out.

Things get started in the wrong direction.

Something is needed to check disease and start the system in the right direction toward health.

Scott's Emulsion of Cod Liver Oil with hypophosphites can do just this.

It strengthens the nerves, feeds famished tissues, and makes rich blood.

GIRL THEIR QUEEN.

How a Pittsburg Car-Robbing Gang Obedied a Little Girl.

With dresses reaching only within two inches of her shoe tops, Bessie Hahill spent her Thanksgiving day under \$500 bail. The girl, who has just turned 14 years, is charged with being the leader of a gang of 15 boys, styling themselves the "Smallman Street Gang."

Five of the boys were arrested with "Queen Bess," and are now in jail, while warrants have been issued for nine other members of the gang. The Smallman Street Gang, according to Detective Peters, of the Pennsylvania railroad, was formed by the Cahill girl about the time the peach crop began to move.

The Pennsylvania railroad and commission men of Pittsburg have lost a great amount of stuff shipped. The headquarters of the gang is close to the Pittsburg produce yards and from here for a few weeks fruits and vegetables, as well as meats, have been carried away by wagonloads.

Prosperity caused the downfall of the gang, as some of the boys began telling how they intended going to college next year and showed much money. Edward Devine, one of the boys under arrest, tells how the girl urged them all to get money enough to carry them through college, so they could become great men.

Double-Tracking B. E. V. R. R.

Items are again going the rounds to the effect that the Bald Eagle Valley R. R. would soon be double tracked. We have so often published such an item that we now look upon it more as a joker than anything else. The fact is that since this railroad was purchased by the Pennsylvania, extensive improvements were expected. Up to this time the extra side tracks and double bridges put in would indicate that it was the ultimate purpose of the company to double the capacity of the road. When that takes place we do not know, but there is reason to believe in the near future.

Don't Forget.

Remember we have all the facilities for doing first class job printing at short notice. Our work is good and prices always reasonable. Don't send out of town for what you can get at home.

Farmers make money by advertising their farm sales in the Centre Democrat.

WORKING FOR NOTHING.

The Buffalo Valley News, of Millfinburg, declares with righteous indignation that it is being over-run with requests for advertising of many appointments that charge admission—make money—that it is to an unreasonable extent, as that kind of work costs the printer for labor done and paper to print it on, and henceforth will not do such advertising unless paid for—can not afford to be thus paid for—can not afford to be thus paid for. Yes, neighbor, what you complain of is carried to an unreasonable extent, and does not aid in paying for paper, ink, type, work—benefits going in an entirely outside direction—and hereafter must be paid for like other advertising.

New Building at Gettysburg. Work has been started on the erection of a new \$10,000 building to be added to the large number of handsome structures comprising the plant of the Gettysburg Theological Seminary. The building to be erected will be a refectory and will be about sixty feet square. The building will be two stories in height and the entire north side will be used as a dining hall.

The Centre Democrat has double the circulation of any other in Centre county. That's so.
