On Saturday night the family of A. J. StClair went out, leaving the coal oil lamp burning in their sitting room.

When Mr. StClair closed the postoffice, at 8 o'clock and went home he found the room filled with a thick, black smoke so that he could scarcely see the light of the lamp. His son-in-law, Wm. Bullock, made a timely appearance and quickly carried the lamp out which, fortunately, did not explode. Otherwise I might have seen the particulars of a "Disastrous Conflagration."

The town boys held a shooting match across the creek on Saturday. It is said that several of them hit the board on which the target was pinned.

A dreadful tragedy occurred at the station on Saturday morning, whereby poor Teddy Roosevelt lost his life by being run over by a freight train. On last Sunday a serious accident occurred on the road between Fisher's fruit house and Will Alexander's barn. A spring wagon load containing five or six persons was going down the road when an automobile passed it and stirred up such a thick dust that four persons in another automobile met the wagon and almost collided with it, which frightened the horses so much that they became uncontrollable. They ran off the road and threw the occupants out of the wagon and ran through Mr. Alexander's fields, but were finally caught. Aside from a few bruises and terrible fright nothing serious resulted. Their names could not be learned.

The young folks are preparing to give us a great treat on New Year's evening. It will be a vaudeville entertainment by strictly home talent.

M. in the upper cemetery. Mrs. Holtzworth lived in this town for many years and the names of her friends is legion. Many persons from a distance attended her funeral which was one of the largest that has occurred here for years. Services were conducted by the Rev. Dr. Platts, of Bellefonte, assisted by Rev. James Pratt, and were beautiful, inspiring and impressive. She leaves to survive her son, Howard E., of Unionville, and one daughter, Mrs. Sarah Brown; also two brothers and one sister, as follows: Charles W. and Howard Eckert, of Lancaster; and Mrs. Susan Woods, of Gap Station, Lancaster Co., all of whom were present at the funeral. The beautiful tribute paid this aged mother in Israel by the Rev. Dr. Platts, as well as that by Rev. James Pratt, were very touching, causing many to "weep with those that weep." She was past 76 years old. Rest in peace.

DEEDS, NOT WORDS.

Bellefonte People Have Absolute Proof of Deeds at Home.

It's not words but deeds that prove true merit.

The deeds of Doan's Kidney Pills. For Bellefonte kidney sufferers. Have made their local reputation.

Proof lies in the testimony of Bellefonte people who have been cured to stay cured.

William E. Haines, Harper Row, Bellefonte, Pa., says: "I have had no occasion to use Doan's Kidney Pills since 1896, when I received a cure from kidney trouble through their use. At that time I gave a public statement, recommending them and it gives me pleasure now to confirm that endorsement. I suffered from lameness in my back and a dull ache across my kidneys, accompanied by a severe pain in my head. These troubles finally became so severe, that I lost much rest and was consequently in no condition to work. Although I tried a number of remedies, I obtained no relief until I used Doan's Kidney Pills. They proved to be just what I required, removing the pain in my back and strengthening my kidneys. During the years which have since passed, I have had no return of the trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Smokeless

Until science discovered a way to construct the Automatic Smokeless Device, and make it completely dependable, all oil heaters had one common great fault—smoke.

With the advent of the Automatic Smokeless Device, and its practical application to the

PERFECTION Oil Heater

(Equipped with Smokeless Device)

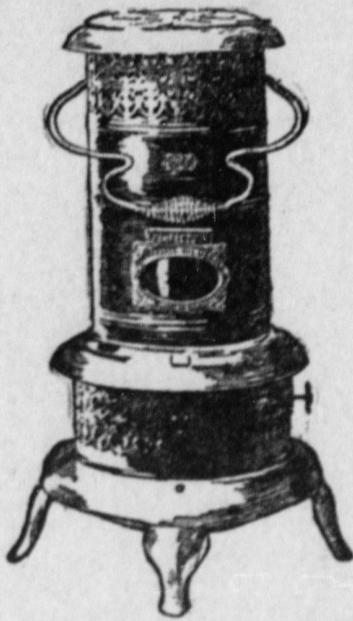

the smoke problem was successfully solved.

The Perfection Oil Heater is the only heater equipped with this

Automatic Smokeless Device

which insures a steady, full-glowing heat, with the wick turned up as high as it will go, without a shred of smoke. Reverse the motion, turn the wick down—there's no odor.

The smokeless device automatically locks and prevents the upward movement of the wick beyond the proper exposure. That is the secret. This splendid result gives leadership to the Perfection.

You may now have all the heat you want—when you want it—and where you want it—without the annoyance of smoke or odor.

Brass font holds 4 quarts of oil, which permits a glowing heat for 9 hours. Brass wick tube—damper top—cool handle. Cleaned in a minute.

FIFTEEN HEADACHES CURED FOR 10¢ BY MOYER'S HEADACHE TABLETS

FOR SALE BY ALL DEALERS

Grains Crisp and Gigantic—

Eight Times Size

Puffed Wheat and Puffed Rice—the foods shot from guns—are eight times natural size.

They are four times as porous as bread. They are nut-like, crisp and brown.

And they are digestible, for every starch granule has been literally blasted to pieces.

That's about all we can say. Cold type cannot describe them. There is nothing with which to compare them.

Puffed Wheat—10c

Puffed Rice—15c

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tremendous.

You will think the foods queer, and they are. But don't think that you will not like them.

Last month, there were seventeen million dishes served in homes that have found them out.

The folks who once taste them, demand them. The folks at your table are just like the rest.

Serve them one package and all will say, "Let us have those puffed foods always."

Then the guns are unsealed, and the steam explodes. Instantly every starch granule is blasted into a myriad particles.

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered. We have simply the magnified grain.

One package will tell you why people delight in them. Order it now.
