

FRANCIS SPEER'S Breezy "That" Column

That in starting the New Year here are some of the resolutions by Bellefonters:

That Burgess John J. Bower has resolved to give each employee of the borough a nice turkey next Christmas.

That Philip Beezer, W. A. Lyon and L. H. Gettle, the butchers, have resolved to remain in business, even if beef gets so high that the cow is compelled to jump over the moon.

That probably the dairymen who supply Bellefonte with milk, resolved that because the water was low everywhere they had a perfect right to the price of the delicious fluid.

That Policeman Harry Dukeman and Daly Justice have resolved that they will keep all drunks off the street if they have to build a bigger lock-up themselves, at their own expense.

That "Hughie" Taylor, the gas man, and Archie Allison, the plumber, have resolved to shake hands, especially as long as the cold weather lasts. They know a good thing when they see it.

That Frank Nagley and Hard Harris, the undertakers, have resolved that they will not look for a "dead cinch" in the fellow who has taken boxing lessons from "Kid" Pilkington, the pugilist.

That "Billy" Katz has resolved to do more advertising the coming year. He realizes that the man who advertises, the world will trade with him; sleep and he'll be left alone. He knows his onion.

That everybody in Bellefonte should resolve to take the Bellefonte Daily. Fred Dunham had enough sand in his gizzard to start it and our people ought to resolve to stick by it, through thick and thin.

That George Mallory, the Bellefonte blacksmith, has resolved to increase his business the next year by trying to persuade his patrons to have their cows shod as well as their horses. Who will hold them?

That Christ Decker has resolved from this out to live on the fat of the land, and be just as independent as a pig on ice. Why shouldn't he? Residing on Linn street the next thing he'll resolve to start a bank.

That Linn Harris has resolved that the Lynch law shall govern the games of base ball played in Bellefonte the coming season. He'll get lynched if he doesn't help manage "Mitch" Cunningham to select players who will win.

That Milan Walker, of Bellefonte, has resolved that during the coming year he is going to get into the social swim and pick out a real nice helpmate. He is getting tired of running the gauntlet alone. Here's success to him.

That three married men in Bellefonte who took three single girls up along Spring Creek the other night ought to resolve to cut booze out and remain at home with their families. Decency is the first principle of a gentleman.

That Councilmen Judge, Kirk, Grim, Keller, Harper, Beezer, Yerger, Musser and Sheffer, have resolved that it will be cheaper to buy gum boots for pedestrians than to repair some of the potholes in wet weather.

That Dr. Weston, general secretary of the Y. M. C. A., has resolved that with the aid of our citizens he will make the Association a factor for good in Bellefonte, during the coming year. He, however, will be boss of the ranch, and not the boys.

That "Billy" Brachbill, the furniture dealer, has resolved to push the go-cart business with more vigor in the future than in the past. The most successful method of doing that would be for Mr. Brachbill to establish several weekly picnics in the county.

That Harry Keller, Esq., has resolved to run again for council. Should he get licked he is not going to get the blues over a little thing like that. If there was \$5000 in it, it would be different. Harry has further resolved to keep the trolley cars from running on Linn street.

That N. B. Spangler has resolved to run that steamer even if "Bob" Cole did come near going over an embankment at the Court House, however, addition to the Court House, however, lessens the hazardous condition of things on that infernal hill that at one time made A. C. Mingle set up and think.

That Dr. R. G. H. Hayes has discovered that practicing medicine and farming have not the affinity he expected and he has resolved that if he can get a suitable place in town he will move back again. How long it will take him to get permanently settled is a difficult question to answer. He is like checkers on the board—always on the move.

That James Schofield, of Bellefonte, has resolved to compile a dictionary that will make old Noah Webster turn in his grave and blush with shame. "Jim's" vocabulary is large and of the most grotesque character which is bound to find recognition. Of course, there will be some jaw-breakers, but any physician can adjust your jaw should it meet with a compound fracture.

That Andy McNitt, John Walker, Archibald Allison, John Olewine have resolved that the Chemical Limestone Company has to make them worth \$50.00 apiece this year or something will bust, even if it is their suspenders. We think that it is about time for that man McNitt to make a matrimonial resolution and stop thinking about the Almighty Dollar. They say that when he does get a chance he does not know how to take care of it.

That Col. J. L. Spangler and Dr. J. L. Selbert have resolved that no brick shall be laid on Allegheny street in front of their respective homes, if they have to protect their rights by asking Adjutant General Thomas J. Stewart to call out the State Militia or apply to Samuel Pennypacker's constabulary.

They mean business, and J. C. Harper, the chairman of the Street Committee, had better take some of his own insurance and then watch his Ps and Qs.

That Revs. Platt, Wilcox, Schmidt, Hewitt, Hower and the other ministers of this town have resolved to make a special effort to win the young men of the town to Christ during the year. They could do it if the members of the various churches of the town would discard the card table and spend half of their time and energies in upholding the arm of the men of God. Without this co-operation the task will be difficult, but not in vain. The card fence is a stumbling block to the progress of church work.

OVER THE COUNTY.

The winter has ended the ice famine that lapped over from last winter's mild temperature. But the water famine continues in pretty much all parts of the country, and not only in Centre county town and villages.

A. A. Stevens, Esq., of Tyrone, on Friday completed the transaction by which he purchased the grist mill property of A. Y. Williams at Bald Eagle. The property purchased consists of the grist mill, store-room dwelling, water power and grounds pertaining thereto.

Miss Margaret Switzer, of Phillipsburg, left on Wednesday evening of last week for Orlando, Fla., to spend the rest of the winter, and Mr. and Mrs. H. H. Ashman started the following morning for the Alligator state, where they too will escape the severe weather we are liable to encounter between this and spring.
