MADISONBURG.

The farmers turned out well at the horse sale at Millheim, on Saturday and some of them had money enough to take some along home.

If you stay all night. "O! what may the harvest be?"

Reuben Rishel thinks the people up the country are all right. We think so too Reuben.

On Friday Boyd Hazel, teacher of the Harter school, favored the Madisonburg school by bringing his school in a four-horse sled.

Sledding parties and dancing are the nightly amusements for the young people. Arthur Rachau, the skilled violinist furnishes the music.

It is too early to fortell the condition of the wheat crop. All the fields are covered with snow and ice. It is easier to tell of the snow and ice crop. The older people do not look for a rich harvest.

Since food prices have soared out of sight in the city, it may be necessary to reverse former wishes and anticipations. We do not know what the result might be if these farmers are taken out of the pit, but all the preachers in town have told us what hard masters devils are.

No visible change is taking place among the farmers this spring. They are too wise to be caught moving.

A good spraying outfit is needed here. Some man might gain a mint by securing one.

Andrew Mark, of Penn Hall, resumed his former position here.

We sincerely desire that you offer suggestions of amusement for your readers and awaken in the minds of many a love for that kind of news which not only excites and stimulates, but strengthens and enriches character.

PINE GLENN.

On Friday Nicholas Vallmont narrowly escaped the loss of a valuable cow. He had turned the cows out to drink and in a short time missed one and went in search of her, and found her in Mr. Beates field, hopelessly entangled in a swamp. With the assistance of Edward Cramer and Raymond Hoover, he was able to pull her out of the mud. She is now in the best of health.

On account of the bad condition of the roads, Rev. Meredith was obliged to cancel his appointment on Saturday evening, Feb. 12.

My! what a great big smile Dewey, our "Grit" peddler, wore on Saturday. He didn't have to walk, most any newsboy can afford to smile when he drives his father's horse and sleigh.

The snow drifts are piled so high in front of the M. E. church that it is next to impossible to get through, and the writer has been worrying all day for fear Charley couldn't get through to make his trip to Keewayden.

Our barber had a new phone put in his residence last week.

Robert Askey made use of his snow plough on Saturday. All hail, the snow plough.

R. B. Daugherty returned to his home on Wednesday after a trip to West Virginia.

Grace Vallmont was taken suddenly ill on Monday night. Dr. Harris, of Snow Shoe, pronounced the illness acute indigestion. We are pleased to note that she has recovered, though she was obliged to miss one day of school.

It is nice to come back to Pine Glenn after an absence of a few days—at least, if you get a welcome like Hazel.

FILLMORE.

John Fogleman, who had his ribs broken, is improving slowly; his arm not being broken.

James Lutz's oldest son, Russel, is very poorly with the pneumonia.

Bud Benner and William Young are building a lime pit for Brockhoff on the farm occupied by Henry Resides.

William Musser, who is working at Altoona, was home over Sunday.

Some say they are glad they have a scribe in Fillmore. Well I am glad to hear that, but we are exceedingly glad we have a butcher and butcher shop in our town for we can just get fresh meat delivered at our door. And I tell you the butcher is all right. I timed him the other day when he was engaged in killing a beef. It just took him two minutes to kill him and two hours and a half to skin him, and well it took him six hours and a half to do it up all but carrying it into the cooler. Now I think Eddie did about as well as any of Armors butchers would have done.

A Sunday school was organized at Zellers school house last Sunday, but had a very poor turn out, only two present. We wish the leaders much success in their spiritual work.

A party of young folks from Bellefonte spent Thursday evening at the home of Henry Resides, having a splendid time playing a series of games and filling themselves to the brim with the delicious refreshments which were placed before them in abundance.

Mr. and Mrs. Resides attended the surprise party of his brother, William Resides, of Bellefonte, on Thursday evening, it being his 66 birthday.

PORT MATILDA.

On Thursday evening three sled loads of young people went from our town to spend the evening at the home of Budd Thompson's, at Marthia. There were about one hundred guests present. Budd seemed greatly pleased to have them in his home. They enjoyed themselves in many ways, and then partook of oysters, cake, and other refreshments. P. W. Young gave the company several selections on the piano, and Sam amused himself holding the baby. Prof. J. A. Williams was there too, and he enjoyed himself so greatly that he said he felt blue the next day. Of course this is natural, as this was his first time out in society this season. The Port Matilda band was also present and rendered some selections. Everyone seemed to have enjoyed the evening and did not seem sleepy, even if it was 3 a. m. when they got home. Budd said: "Come again; everybody."

One of our kind friends is circulating a story about one of our teachers in town, which we have found out by inquiry is not true; what he expects to gain by this story is more than can be told. Please be careful to tell only what you know to be true. Our teachers, I feel sure, are trying to do the best they know how in teaching the children in their care. Go visit the schools and see what they are doing, and if you have any improvements to offer go to the teachers themselves, and I am sure they will thank you for it.

\$640 IN CASH BURNED

In a fire, which on Saturday night, last, destroyed the home of Frederick Pepper, at Troy, near Phillipsburg, \$640 in cash, which was in the house at the time, was also burned.

Mr. Pepper and his family escaped from the building in their night clothes. A high wind was blowing at the time and the house was completely destroyed with nearly all its contents.

From Bellefonte Republican, Feb. 10, 1910. If the owner of the money lost in the fire described above had heeded our advice his money would now be safe.

After each reported loss we receive deposits from persons who have made a practice of keeping money at home.

ENAMEL WARE CAUSES CANCER, SAYS DOCTOR

Tells Homeopaths Particles From Dishes Start Growths in Stomach.

Special Dispatch to The North American.

ATLANTIC CITY, Sept. 11.

INTRODUCTION of modern enamel ware in the kitchens of the country is responsible for many cases of cancer, was the striking theory advanced by Dr. William H. Dieffenbach, of New York, in a paper entitled, "Observations on the Etiology of Cancer," read before the Bureau of Sanitary Science and Public Health, at which leading experts of the International Homeopathic Congress met today to discuss questions of public health.

The argument advanced was that chipping of the hard-coated dishes used in preparation of meals allowed minute but dangerous particles of foreign matter to become mixed with the food. These are taken into the stomach, where the cancerous growth is caused by abrasions which they make in the walls of the organ.
