COFFEE

When goods advance on the market the retail price usually follows. But in regard to the recent advance in Coffees we have not followed the ordinary course, either by marking up the price or reducing the quality. We have found a new and more favorable market in which to buy the goods and maintain the high standard of our leaders at 18c, 20c and 25 cents per pound.

If you are using a Coffee at 20 cents per pound try our 18 cent grade. If you are paying 25 cents for your Coffee try our 20 cent goods. Or if you are buying at 30 cents try the high grade goods we sell at 25 cents per pound. This is a severe test but we are very confident we can make good. Give us a trial.
