The Public Reception

To Rev. E. F. Foust, the new min-ter of the Reformed church, tendered him by the congregation in the church building last Saturday, was a most pleasing function, successfully carried out in every detail. Representatives of all of the congregations in his charge were present, with the other resident ministers of the borough, and many citizens of all denominations and of no denomination. The feast prepared for the occasion which was prepared for the occasion which was the Sunday school room, and was great by enjoyed by all participating. After its most thorough and satisfactory discussion the people gathered in the main audience room, where a formal meeting was organized. The exercises were opened by an appropriate religious exercise conducted by Rev. H. I. Crow, the retired minister. Addresses of welcome were made by Rev. H. I. Crow, the retired minister. Addresses of welcome were made by Rev. The special serious conducted by the Rev. S. B. Bergen, her former pastor, of Pittsburg, assisted by the Rev. S. D. Pittsburg, assisted by the Rev. store room, which is in the end near-est the railroad, could have been saved, but this was not the case, and in a short time the whole plant was reduc-ed to ashes. The building was probably twenty rods outside the borough timits, and the nearest lire plug is sevcraf rods inside the line, the combined distance being much greater than the length of hose owned by the borough. The loss is confined to the building and reaching as there was no canned machinery, as there was no canned material on hand. Insurance \$6,000. As the building was roofed with slate, there is no question of engine sparks as responsible for the burning, and there were strong indications that the fire was of incendiary origin. The loss to the stockholders is a very ser-lous and regrettable one, for they had struggled hard under adverse circumstances to keep the concern running, since its erection; but to the community at large it will matter little, as it has not run since the fall of '08, and there was no probability of its again being a factor in the business of the nity, nor a source of employment to anyone.

Commencement Week

A Good Sermon
Dr. J. F. Dunlap, D. D., President of the Albright College, at Meyerstown, Pa., very acceptably occupied the pulpit of the Evangelical church on Sunday. At the close of the service he asked for a contribution of twenty five dollars toward paying an old debt of the College, amounting to nine-

speedily subscribed. It is necessary raise this full amount before the first of June in order to secure a gift College, conditioned upon the payment of the old debt by the church at large, and our people were glad to help, more particularly perhaps, because some of our nicest young folks are pupils of the institution, And the Doctor did not fall to say some very nice things of them, either. In the morning and af-ternoon Dr. Dunlap preached at the Jacksonville and Fairview appoint-ments and at each of these places, as

at Howard, the amount subscribed was somewhat in excess of that which was asked. If all the other charges in the several districts interested do as well, the debt will be paid, as it has been apportioned with that end in

Prospering in Business
Charles E. Pletcher has, by diligent attention to his business, come to a point at which he needs to improve his facilities, and is now laying the foundation for a better building on his own lot on the opposite side of the alley from where the blacksmith shop now stands, which is on leased land. He will move to this the old building, which was built in 1881, by Jos-eph Hall and his son Wilbur F., and The special committe on the sureties dition, enlage it and attach it to the woodworking shop now on a part of the ground. This will give him a much improved equipment and enable make a much needed improvement in both properties, and help the appear-ance of things greatly in that section.
