It is again reported that Senator Aldrich will voluntarily retire from pub- thinks seriously. lic life at the close of his term on the 4th of March next. The question is, how the Republicans in the Senate can do without their omnipotent leader. That's just too bad, and then who will reduce the government expenditures to the amount of three hundred million dollars that Aldrich boasted he could do? He was thirty years in the senate and never made a move towards a cent's worth of reduction.

Senator W. C. Heinle, of Bellefonte, has fully decided to be a candidate for congress in this district; and is in Clearfield this week on that mission, His nomination papers are now being circulated through the district. Up to this time there are no other Democratic aspirants, thus it is probable that he will get the nomination without a contest. Although this district has an overwhelming Republican majority, yet the news from Massachusetts and New York is exceedingly encouraging, and everything points to what this outrageous tariff was doing a Democratic congress, and this disthe person of Senator Heinle.

Republicans who have heretofore royally supported the Speaker, are privately saying that if he continues his open hostflity to the insurgents they will unite in a movement to depose him as Speaker at once, without waiting until the end of

It is asserted that some of the conservative members of the House favor such a program. They take the ground that Uncle Joe is endangering the success of the Republican party at the polls by keeping alive the issue of Cannonism. The insurgents, after their victory of March 19, were willing to call it quits. They had secured a triumph, had humiliated Uncle Joe, and, to a certain extent, had vindicated themselves. They had no desire further to humiliate the Speaker.
