Impossible to be Well

It is impossible to be well, simply impossible, if the bowels are constipated. You must pay attention to the laws of nature, or suffer the consequences. Undigested material, waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. A sluggish liver is responsible for an immense amount of suffering and serious disease. Ask your doctor about Ayer's Pills. He knows why they act directly on the liver. Trust him. J.C. First and second City troops, Troop A, of Philadelphia and Battery B of Pittsburg, will represent the National Guard of Pennsylvania at the camp of the United States

BOALSBURG.

The Pine Grove Mills ball team was defeated on their own grounds by Boalsburg, on Saturday. Ross pitched an exceptionally good game for Boalsburg, while Martz, with his left-handed twisters, was not quite so fortunate, although he pitched a fine game. The all-around work on bases and at the bat and in the field of the Boalsburg team showed that Loberger's team has been taught some of the fine points of the game, and that he has a bunch of boys that are hard to beat. Only two errors were charged up to them and one of them was an excusable one on a very hard chance by "Lowney" himself. Too much credit cannot be given the boys for their victory, as they were up against a pitcher who has played on some fast teams. Score by innings:

Boalsburg 9 1 1 0 0 2-4

Pine Grove 1 0 0 1 0 1-3

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort. Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.
