Port Matilda No. 2.

The weather has been very cold during the past week. It froze ice two mornings in succession. The water in ditches along the roads was frozen over. Freezing of the fruit is almost certain. Leaves on some trees were even frozen. It has been cold during April that things planted in gardens have not done much good. I know a person who planted some potatoes four weeks ago and they have not come up yet. They are sprouted but not through the surface. Let us hope May will be better.

A few of our early risers have seen the comet, but not many. Some of our people are greatly excited about it, fearing the world is coming to an end. It is not likely that any damage will be done to old Mother Earth, unless it gets a few millions of miles closer to us. If these people were living as they should, these things would not cause so much fear.

The Knights of the Golden Eagle have appointed a committee to make arrangements with the Grand Army for Decoration Day services at this place. It is hoped the order may be of assistance in aiding the old soldiers in their decorating on this day. Let us take hold and boom the cause along and let us have a day as we used to have.

Last Monday evening quite a crowd of young people gathered at the home of Mrs. Lytle and gave a surprise to her son, Grover, who is a soldier boy in Uncle Sam's standing army. He has developed into a fine-looking soldier, and we understand that he has been a good and faithful soldier. Grover returned to his post in the Signal Corps, at Omaha, Neb., on Wednesday. He is in the company of a detail who are to be sent to Alaska this summer. He says that the army is a good training school for any young man, and that many useful and helpful things can be learned in the service. Also they get an excellent chance to see the country. He expects to re-enlist when his term expires next March, and will therefore not be home again till sometime in 1912.

We are glad to state that Porter Weaver, who had undergone an operation for an abscess near the spine, is improving, and it is hoped that he will soon be well again. His case has been a serious one and for a while doubts were felt that he would survive, but he is improving finely now.
