SPRING MILLS.

The farmers are nearly all done planting corn and peas.

In some parts of this vicinity the early cherries are frozen, especially in the heart of the valley. Along the mountainside, where the frosts did not reach them so much, there will be a fair crop. If nothing special happens there will be a good crop of apples, pears and peaches, mostly along the winter side. Oats and barley are coming nicely; all that is needed is a warm rain and warm weather. Some wheat fields are looking good, while others are spotted, on account of the heavy ice which was lying on them so long. The grass fields are looking finely and green through this vicinity—there will be a good hay crop.

The whippoorwill made his appearance on the 8th of May. If the old saying comes true, we will get warm weather now, for they will sing their sweet music around the wheat fields.

Mrs. Harry Smull, of Smulton, Sunday at the home of N. J. Feldler's.

The farmers are making quite an improvement by putting up wire fences along the public highway, which looks better than those old board and rail fences.

There is much talk about the comet at the present time; some people are nearly beside themselves.

The people have been trying to see Halley's comet these mornings, but very few have been rewarded with a view of it.

The farmers have about completed planting corn.

The grain is not growing as fast as it would were the nights warmer.

Why Salves Fail to Cure Eczema. Scientists are now agreed that the eczema germs are lodged not in the outer skin or epidermis, but in the inner skin. Hence, a penetrating fluid is required, not an outward salve that clogs the pores.

We recommend it to all eczema patients the standard preparation Oil of Wintergreen as compounded in liquid form known as D. D. Prescription, at only 25 cents, will instantly relieve the itch. We have sold and recommended this remedy for years, and know of wonderful cures from its use. We recommend it to our patrons. Green's Pharmacy Co., Bellefonte, Pa. By mail 25-cents extra.

BUSH GROVE—Union Twp.

Corn, oats and potatoes and garden nearly all planted, and some have already sowed buckwheat. Harry Geist says that the farmers had better get ahead with their spring work as harvest will be on before we are ready for it; the grain is out in full head now and is looking real good; if we should get a good, warm rain it would be good for everything.

We had a hard freeze on Sunday night—was 6 below freezing.

Most all the people attended the baptism at Unionville on Sunday afternoon, by the Free Methodists; six were immersed; they were, Norman Resides, Miss Rachael Warner, Miss Alice Potter, Miss Roda Watson, Miss Grace Koons, Mrs. Catharine Ammerman. Work is plenty here and men and boys are scarce for all have gone to other places who could well go; you can't hire a man for love or money. The ones who have struck for higher wages are George Deeters, who moved into C. M. Resides' house last fall; he is working in the heating shops at Altoona and is making over \$5 a night. That beats working on the railroad for \$1.52 and feed your face. George Tolbert, our crippled boy, is also working in the same shop, cutting threads on burrs and makes \$4 per night; and Clark Geist is in Altoona carpentering in the freight shops; he makes \$90 a month. Sherman Geist is up there, too; he is learning the machinist trade and makes \$2 per day. Frank Lannen had a smile on his face as broad as a Merry Widow hat and we asked the reason of it; he said he had a dandy good cook now; if she was a widow she was a good one.

I saw a new way to plant potatoes and a quick way to cover them, the other day. A farmer near here marked out his rows, dropped the potatoes and then covered them with a spring-tooth harrow. Did he? He thought he was, but a man walking over the field afterwards said the half of the potatoes or more were lying on top of the ground. The man was afterwards seen in the field covering these unruly ones with his feet. If this crop is a crop at all it will be a mystery to me. Better take a little more time and trouble and do things right.

The lecture given here last Wednesday evening on "The House That Jack Built," was well delivered and proved to be an excellent explanation of the theme of character building by human beings. All who did not hear him missed some very good advice. The foundation of his house should be (as given in this lecture) courage, truthfulness, and on the north, patience. The whole building was to have a roof of Godliness. Let us all endeavor to build in our character so fine and lasting a house.

I was recalled to state these items that there will be horse races and foot races and a general good time, followed by a festival at Milesburg on Saturday, May 21st, by the base ball team of that place.

Some foolish persons say they will not plant anything in the ground or do anything until after the 15th as the world will be destroyed by the comet. Such persons should stop and think a little, and use a little common sense.

PENN HALL.

A Mark(ed) Surprise—Mr. Henry Mark, a highly esteemed farmer and citizen, north of the pike near Penn Hall, was treated to a pleasant surprise upon the anniversary of his 70th birthday, by his wife and immediate family and friends, on Friday. They conspired to have him visit a friend upon some alleged important matter, in Brushvalley, so that the set-up could be arranged successfully. He was thus lured to carry out that important part of the program and the "conspirators" just did the thing up to perfection, and had all in apple order when Mr. Marks returned from his fake visit. Almost dumfounded the victim of the pleasant affair did good naturedly surrendered and did his part to make it happy for all present and himself the happiest of the assembled group. All good things for the palate, music, well wishes, long life and health, characterized the affair from A to Z, and will be a pleasant remembrance for Mr. Mark and family, as well as for those who thus gave him proof of their highest esteem.
