

THE NEW PARASOLS.

Larger Than Usual This Year and Sticks Long.

ONE OF THE NEW PARASOLS.

Parasols this year are exceptionally pretty. They are somewhat larger and more spreading than usual...

It is time to put furs away for the season, and it is well to put them away in as good condition as possible.

When a fur coat becomes creased, either from laying some article upon it or from crushing, the best method of removing such marks is to thoroughly dampen the fur...

Women to Run Hospital. What is said to be the first hospital in the country to be managed and run solely by women was recently opened at Hempstead, N. Y.

Kill Million Flies With One Swat. The open season for flies is now on, and physicians and bacteriologists are sending out passionate pleas to housewives all over the civilized globe to slay and slay and slay.

A Straight Tip. Two Irishmen stopping at a hotel in Dublin shared the same bed as well as the same bottle of whisky. Pat waited till he saw Mike was asleep, when he rose quietly and emptied the bottle.

These figures merely, but there remains the grand and solemn fact that if you wait until August to kill a fly you will have the blood of only one miserable insect on your hands...

Health experts lay directly on the flies the responsibility for the spread of diphtheria, consumption and enteric fevers. How many young children have died as a result of drinking fly infested milk is something no one can estimate with any approach to accuracy.

Creases in Fur Coats. It is time to put furs away for the season, and it is well to put them away in as good condition as possible.

When a fur coat becomes creased, either from laying some article upon it or from crushing, the best method of removing such marks is to thoroughly dampen the fur.

In no case should furs be placed near a fire to dry, because each little hair is furnished with a tiny mite of oil, and this is apt to dry when the fur is placed in direct contact with heat.
