Thursday evening of next week bethe Presbyterian church for the benefit of the Bellefonte hospital which is in need of money. This en-tertainment will be given under the direction of Prof. Hall, of the Belle fonte Academy. The large chorus will be composed of the best musical talent of the town, each church choir being represented. This is a benefit that should appeal to everybody, thus the large church should be crowded. The ission will be 35 and 25 cents.

—On Tuesday General James A. Beaver left New York City for Edin-burg, Scotland, as a delegate from the Board of Foreign Missions of the Pres-byterian church, to the International Missionary Convention, to be held in that city this month. Including Operation for Same-No State Money-Facts not Generally Known.

This week there appeared an exceptionally timely article in the "Senti-nel,' published at Lewistown, relative to the hospital at that place. It is timely because it covers a number of he was the Memorial Day orator at Boalsburg, Pa., on Monday, and acquit points on which the general public in every community are more or less misinformed. In Bellefonte and Centre county it is a common thing to hear informed. house at Penna. Furnace, this Thursday. A number of invited guests from similar complaints from well-meaning people on the question of hospital charges, and what becomes of the

money paid for operations.

There is much misunderstanding on this point, and therefore we deem it sume her daily routine work of cash-ier for the Bell Telephone company, at appropriate to publish verbatim, the article published upon the Lewistown hospital, as every word applies equal-ly well to the Bellefonte hospital: -W. Harrison Walker, Esq., has been chosen toastmaster at the ban-quet to be given by the Delta Cht "A letter received by The Sentinel several days ago and turned over to

"No money whatever is paid out of the hospital fund to doctors and no money goes into the hospital fund from patients for the treatment of physicians and surgeons, and hence the yearly reports can give no account of money paid to doctors. What they receive for their services from tients who are able to pay is a matter between them and the patients, just

the same as home treatment. "Recently I heard the hospital criticized because it was alleged that it wanted to charge a man \$186 for an operation and he was not financially able to pay it. This was a mistake. For an operation the hospital charges three dollars for the use of the operting room and the necessary implements and supplies; five dollars for administering the anaesthetic, which goes to the skilled person performing that duty, and one dollar to two dollars per day for the time the patient at the hospital, the rate being dendent upon whether the patient ocuples a ward or a private room. Orfinarily the hospital charge for an operation and the attendant care is bew twenty-five dollars. Patients unmedical treatment are only charged by the hospital the regular rate of one or two dollars a day.

The physicians and surgeons very naturally expect to be remunerated for their services by people who are able to pay. Whether their charges are reasonable or otherwise I cannot decide. I understand that the regular rate for medical attendance is two dollars a visit. Surgical rates vary, but in surgical cases the price ought be ascertained whenever possible before the service is required. Rates here are hardly up to that of city surgeons, and yet the surgery skill and success at the Lewistown hospit-

The Lewistown hospital was tablished principally as a charitable institution and its object is still largely benevolent. More than half of those treated during the last hospital year did not pay a dollar for the ser-vice. The hospital was thus a God-send to these 124 people, and it is certain that lives have been saved, suffering relieved and cures accomplished by the skill and treatment which in all probability these people would not otherwise have been able to se-cure. That is the best part of the commendable work the hospital is do-

"In view of this good and humane work, people could well afford to be generous in their references to the pospital, but at least they ought to be fair. Do not accuse the hospital of overcharging, because it is not guilty. The most it receives from its wealthiest patient does not amount to the average cost per patient.

"I know that this being a public institution supported by the people directly and indirectly, the people have a clear right to discuss it and to critby the company and a few years ago became one of its veterans and was placed on the roll of pensioners. No strength was ever built class them as knockers, although it is probably true that the worst knockers are those who have done practically nothing for the hospital. The Soldier Told the Truth and Won the Prize.

During the spring of 1864 a company of Virginia soldiers was encamped near the home of Mrs. Sawyer, a woman noted throughout the neighborhood for her charitable deeds. One day, driving by the camp, she saw a poor, sick soldier lying by the roadside and, stopping her carriage, talked to him for some time, asking about his Charge Private Patients-Receive lealth and expressing her sympathy. She noticed while doing so that on each band be had two thumbs.

Upon reaching home she was haunted by the recollection of the poor man, and, although provisions of all kinds were very scarce, she determined to divide with him the few things she had in the house.

After preparing the basket she remembered that she had not asked his name, but, recalling his deformity, wrote on the cover, "For the soldler with two thumbs." Giving it to a trusted negro, with minute directions, she sent him on borseback to the camp.

She was much surprised at his speedy return and asked how be had managed to find the man so soon.

"He was de fust ope I see," said Sam. "I was gwine long, and a soldier ask me what I got in dat basket, and I tole 'im a chicken and things for de man wid two thumbs, and he say he was de one, and I give 'im de

"Did he have two thumbs on each hand?" she asked.

He Bungled It.

The mayor of an English town who had had little experience in public speaking consulted a friend as to what he should say in proposing the toast of a distinguished lady who was visiting the borough for a public ceremony.

"Oh, be quite brief!" said his friend. You might mention her being a model of all the virtues and that sort of thing, but the less you say the better." And this is what he said: "Gentlemen. I propose to you the toast of our guest. You know they say she's a model of all the virtues, but the less

we say about that the better." The Lesson. When Willie's father came home to

supper there was a vacant chair at the table. "Well, where's the boy?" "William is upstairs in bed." The answer came with painful pression from the sad faced mother.

Moses Not Yet.

The Rev. Henry van Dyke of Princeton is quoted as telling this story at a recent Presbyterian gathering:

"A Connecticut pastor of a denomination well known to us was questioning a boy pupil of the Sunday school The lad answered greatly to the satisfaction of the good man, but finally the latter was stumped when the youngster made his last reply.

"'What commandment, my son, did Adam break when he ate the apple?' asked the pastor.

"'Please, sir,' returned the boy, there were no commandments at that time," "

The Point of View.

William had just returned from college resplendent in pegtop trousers silk hosiery, a fancy waistcoat and a necktie that spoke for itself. He entered the library, where his father was reading. The old gentleman looked up and surveyed his son. The longer he looked the more disgusted he became.

BEFORE AND AFTER.

There is quite a difference between the treatment some men accord their sweethearts before and after marriage. Such at least is the conclusion any observing person must come to if he lives for some years in the same community. No sacrifice seems too great before, and even the smallest attention irksome after. Before, they could scarcely be with their sweethearts often enough; after, they scarcely find time to come to eat. Before, they showered them with favors of every kind—bonbons, cut flowers, drives, evenings at the theatre, pleasant social functions and what not; after, they are left alone and forgotten to while away the long hours of the day

and the weary hours of the night.

And in 99 cases out of every 100, the fault of this change is not the fault of the wife. She is just as sweet, just as loving and attentive and charming as before, and would remain all these until the end of time, if the husband would continue to be as "perfectly lovely" as he was before. And even with this thoughtless neglect on the part of the husband, many a sweet little wife continues to pursue year after year a course of faithfulness and fidelity in the discharge of household and marital duties that must earn for her crowns of particular splendor in the life to come.

Paint Mail Boxes White.
The department at Washington has sent the following letter to all post-

masters: "It is the desire of the department that you earnestly request patrons of rural delivery out of your office to paint the boxes and the post that they are attached to pure white in color.

This, of course, if pursued, will not only result in benefit to the patron in serving to protect his box and post from damage by the weather, but will give all the boxes a uniform color and serve to fix their identity in all parts of the country as United States mail boxes and will at the same time give them a much neater and sightlier ap-pearance than they now possess.

"It is also desired that patrons be induced to imprint their names and box numbers on boxes in black letters of the block style about two inches in height.
