What is the matter with our people, that there was such a poor turnout for Decoration services.

A serious accident might have followed when Frank Fisher came down the Condo Hill with his auto and met Mrs. Mike Grove and her daughter, Bessie, and two grandchildren. Their horse took fright and backed them down a steep embankment against Mr. Solt's house. They were not hurt, but the horse was badly skinned up; someone will have to pay for the buggy which was used up.

James Finkle drove over one of William Graden's children; the child was unconscious for awhile, but came out all right again; there is entirely too much reckless driving by many people.

The horse race was the feature of the evening—Forest Albens being the winner, John Brady second, and Mr. Alexander third. The foot race was also exciting; won by Edgar Miles, John Bryan second, Roland Bryan third, and Malcolm Housel fourth. Tipple says he could easily have won first, but was ashamed to take the money.

The bicycle race was a hummer also, won by John Billock; and no went on the festival. Ice cream and cake was served. Ross Wallace had charge of the cake walks and acted as cake auctioneer; George McCullough, the confections and soft drinks, and had a very busy evening.

The fruit bowl was chanced off, J. C. Scholl, of Bellefonte, being the lucky man. The liberty cake, baked by Mrs. Wm. Kline, also went to Bellefonte, Jerome Dale being the lucky winner.

The swing was won by Edward Quirk, of Milesburg. Everything went along smoothly and we witnessed the largest crowd in town for some years; we wish to thank the people in general for the helping hand they have loaned us in this event; it seemed everyone was interested and nothing was left undone to make it a great success.

MT.PLEASANT.

The Memorial services preached in our church on Sunday was well attended by members of the P. O. S. of A. and G. A. R. men, and the people of this vicinity; some came as far as Tyrone. This sermon was preached by request of the P. O. S. of A. and it certainly will benefit them greatly in bringing new members in and holding what have joined, together more firmly. The Children's Day services will be held in our church on Sunday evening, June 12th, at 7:30 o'clock.

Mrs. Charlotte Wigham, of Bell Hollow, is reported on the sick list.

The Memorial service was largely attended at Mt. Pleasant and Black Oak. Three secret organizations were represented: the P. O. S. of A., Hannah, numbering 36 at the former and 31 at the latter; the J. O. U. A. M. numbering 10 at both places; the K. G. E. numbering 7 at both places.

The two latter orders were from Port Matilda. The Hannah P. O. S. A. drum corps furnished music for the occasion until Port Matilda was reached, when the band of that place joined in and led the Eagles and Juniors.

The G. A. R. men are passing away very fast; a few years ago, on Decoration Day fifteen was small for attendance here, but this time only seven were found at Mt. Pleasant six at Black Oak and four at Port Matilda. We hope that the patriotic orders everywhere will show their patriotism on Memorial Day in years to come, for as a veteran remarked a short time ago to a member of this order, they are following closest of any organization, in the tracks of the boys that wore the blue.

HAVE YOU GOT YOUR \$34.45?

If Equally Divided Many Could be Happy.

Have you got your \$34.45? Estimating the population of the United States on May 2 at 91,400,000, the odd amount of money in circulation at that time was \$2,104,500,000.

The treasury department figures the per capita of circulation of money on the above basis at \$24.45.

An esteemed Republican contemporary asks the question, "Have you got your share?" To this hundreds of thousands of the bone and sinew of the land can truthfully say, "No we have not got our share." And why not? To this the Centre Democrat will make answer: Because a few have millions more than their share and dishonestly acquired—hence the \$34.45 will fall short to hundreds of thousands of toilers.

For instance, of the above mentioned total, a few have far more than the lion's share: Rockefeller has 700 millions, secured by robbery in oil and the tariff on oil; Carnegie has 300 millions made in steel by way of a high tariff on steel. Morgan has secured hundreds of millions by protective tariff agencies. Harriman, the railroad king, has upwards of 400 millions by privileges secured by way of legislation. Then there are the best trusts, operating under a protective tariff, they have several hundred million.

With these there are a score of other trusts by way of legalized robbery through tariff. Other individuals to the number of scores have their millions running all the way from twenty-five million dollars up to an hundred million—all piled up by high tariff legislation. So it will be seen that if the balance were equally divided, instead of \$34.45, that pittance would dwindle down to about seven cents to every man, woman and child in the land and these have no tariff whatever to protect them. Now cipher out for yourself.

CANCER IS CURABLE.

Use of Surgeon's Knife the Only Remedy for Dread Disease.

The cancer commission of the Medical Society of Pennsylvania reports: That in a great majority of cases cancer is curable.

That to be cured cancer must be detected in the early stages.

That the only certain cure, even in the early stages, is to have the diseased tissues completely removed by a surgical operation.

That in four-fifths of the cases cancerous growths start in some part easily accessible to the surgeon.

That any sore caused by constant irritation of the skin or mucous membrane may become cancer, and therefore should receive prompt medical attention.

That any wart, mole or tumor which shows ulceration is likely to be cancerous, and therefore, should be removed at once.

That cancer is increasing with such alarming rapidity that in some sections of the State it kills as many persons as tuberculosis.

Wants More Money.

A. T. Hamilton has brought suit against the city council of Lewistown to collect \$100 extra pay as local health officer during the late epidemic of measles. The doctor's fixed salary from the city council is \$10 a month, and council has made it a rule not to pay any officeholder in excess of his fixed salary. The doctor claims he disinfects and quarantined 285 homes during January and February, and that the law permits council to make an additional appropriation for the tax payers in case of an epidemic.

Preachers' Pay Averages \$663.

The average annual salary of a minister of the gospel in the United States was but \$663 in all denominations, according to the census of religious bodies for 1906. The denominations showing the highest averages are Unitarian, \$1653; Protestant Episcopal, \$1242; General Convention of the New Jerusalem, \$1233; Jewish Congregation, \$1222; Presbyterian, \$1177.
