CHOICE EXTRACTS.

The "Republican's" extra on Monday, issued to celebrate Patton's victory over Emery, contained a few choice flings that no doubt are appreciated by Mr. Emery's friends in this county. From the "Patton" extra we make the following choice extracts,

Republicans are reluctant to concern themselves much about government expenditures in relation to the cost of living. But one thing is certain. Government does not pick up these hundreds of millions of dollars in the street. This money comes out of somebody's pocket. Unlike city and state governments, the national government has but one way of raising revenue to meet expenses, and toat is by taxing things eaten, worn or used by the people. Hence it is that in-creased cost of living marches handin band with increase! government extravagance.

Lest we forget only nine of the 218 Republicans of the national house of Representatives are in a position to stand before their constituents and report that they voted to unseat Cannon as speaker. Page 3490 of the Congressional Record shows that on March 19 all but nine Republicans voted aginst the Burleson resolution which would have unseated Speaker Cannon and made it possible to elect a new speak-Every Democrat voted to unseat

"Uncle Joe." A brief definition of "Cannonism" has been asked for. Cannonism means that when the interests of the common people and the interests of the steel trust, the sugar trust, the lumber trust, the harvester trust, and the combination of New England cotton manufacturers come to conflict the latter get the legislation they want and the people are forb fput:1-ss22 and the people are forced to take that which they do not want. The Payne-Aldrich law is a good illustration. The people said: "We want downward revision of the tariff in order that the cost of living may be lessened." The corporate interests said: "We want upward revision in order that our pro-fits may increase." The people were disappointed, and the campaign-con-tributing tariff trusts were obeyed. That is Cannonism.

Direct charges that the Morgan-Guggenheim syndicate caused the appointment of the federal judge, the prosecuting attorney and the United States marshal who will represent the government in its suits over the Cunningham coal land claims (which Bal-linger was so friendly to) have been made before the senate committee on judiciary. Champ Clark's Predictions.

Representative Champ Clark, of Missouri, the Democratic leader of the house, said a few days ago: "I would rather be speaker of the house for two years than United States Senator for three terms. I am confident that the next house will be Democratic and I am sure that I have a good show for the speakership."

AWARDING OF PRIZES.

On Thursday evening a large audience assembled in the High school auditorium to hear Rev. Madison C. Peters, D. D., of Brooklyn, N. Y., who delivered the commencement address graduating class. Everybody went there with the purpose of hear-ing something fine and they were not disappointed. He gave the young ladies and gentlemen some good advice, n which he put particular stress upon the young graduates selecting a chosen vocation for which they are adapted, and then sticking to it. This is a day of specialties, and the man who sticks to one thing and works hard at it is sure to win out. To the young ladies he advised them to prepare themselves for life's duties. No mat-ter whether they intend to get married or not. Life is very uncertain, and the young woman who is best prepared for it will have less trouble and anxiety. His address abounded with practical illustrations of men and women who with one purpose in life, won success. He is quite a brilliant orator and his address was highly appreciated by the representative audience that gathered there to hear him. Following the address Henry C. Quigand announced the prizes as follows:

ley, Esq., preseident of the Bellefonte school board, conferred the diplomas W. Fred Reynolds general excellence prize, \$10—Raymond R. Jenkins.

Meyers insisted that should be given the team, but officer Dukeman was determined it would not leave the stable. Finally Dukeman telephoned to Peter Lease's livery stable, in Lock Haven, and gave Lease notice that the team was here and under the circumstances he would hold it until he would send someone to Bellefonte who would properly take care of it. When Meyers found he was up against the real thing he said to Dukeman, "Well, we can walk to Lock Haven." Dukeman replied that he didn't care how he got there, but he wouldn't get there with the team. RAIN SPOILS BIG PARADE.

Sunday was an exceptionally wet day in Bellefonte as it rained incessantly from early dawn until way into the night. The inclement weather spoiled a big Sunday school rally in Bellefonte, something that perhaps never was seen in the county along this line. Arrangements had been made for the assembling of all the schools in town on the diamond. Then around the square singing sacred hymns and then to the High school auditorium where a Sunday school ral-

held at Washington, D. C. Excellent might live to round out the century, music was furnished by the Harp chorus. The scriptures were read by Rev. C. C. Shuey after which Dr. Smith gave an interesting and graphic description of that wonderful conven-tion, the 10,000 delegates coming from every portion of the world. A number enthusiastic addresses were made and the parade was the finest seen on Pennsylvania avenue. In a very short time \$75,000 was raised for the work, "I will follow," was the ti-tle of a selection sung by Dr. Schmidt when the audience joined in the chorus. Dr. and Mrs. Schmidt sang a selection dedicated to the travelers which was very pretty, after which the audience took up the sweet refrain. The Glory Song was then rendered by Dr. J. Allison Platts, he taking the solo part and the choir and the audience joined in the chorus. The meeting proved a success in every particular.

A Stirring Missionary Address. The Philipsburg Journal says that Charles C. Shuey, the well known Bellefonte business man who can generally find some time to devote christian work, was present the other evening at the missionary rally in the M, E. church and made a stirring and impressive address. He had attended the great laymen's convention held recently in Chicago, as well as the one previously held in Harrisburg, and brought much information that ap-tic speaker, and having his whole soul in christian work, not only deeply inpealed profoundly to the hearts of his audience. Mr. Shuey is an enthusias-terests but greatly edifies his hearers.

The Alpha Fire company, of State College, has decided to give that town a monster old-fashioned celebration on the Fourth of July, in connection with the dedication of the company's new fire hall. There will be athletic sports, a big parade and fireworks.

BIRTHDAY ANNIVERSARY.

On Thursday there was a birthday anniversary held at the home of Mrs. Love Ann Peace. On that day the iady was 91 years of age and is still hale and hearty. She is the widow of the late John Peace, and was born in Curtin township, Centre county, but is now residing in Woolrich, Clinton county. There were forty-eight relatives and friends present who thora parade was to be formed, headed by W. T. Harp and his chorus of singers which have become quite popular in Bellefonte. They were to march which time the aged lady became very happy and walked over the room with such quick and elastic steps as to make her friends feel she was regainly was to be held.

JUNE ON THE GREAT LAKES.

Restful, delightful, interesting, and instructing, there is no trip like that on the Great Lakes, those inland seas which form the border line between the United States and Canada. And June is one of the most charming months in the year in which to take the trip.

For comfort the fine passenger steamships of the Anchor Line have no superiors. As well as the palatial ocean greyhounds which plow the Atlantic, their schedule allows sufficient time at all stopping places to enable the traveler to see something of the great lake cities and to view in daylight the most distinctive sights of the lakes, and the scenery which frames

The trip through the Detroit River, and through Lake St. Clair, with its great ship canal in the middle of the lake, thence through Lake Huron, the locking of the steamer through the great lock at the Soo, and the passage of the Portage Entry. lake and canal, across the upper end of Michigan are novel and interesting features.

The voyage from Buffalo to Duluth covers over eleven hundred miles in the five days journey. Leaving Buffalo, the steamships Juniata, Tionesta and Octorara, make stops at Erie, Cleveland, Detroit, Mackinac Island, the Soo, Marquette, Houghton and Hancock, and Duluth.

The 1910 season opened on May 31, when the Steamer Tionesta made her first sailing from Buffalo.

The Anchor Line is the Great Lake Annex of the Pennsylvania Railroad, and the service measures up to the high standard set by the "Standard Railroad of America.

An illustrated folder, giving sailing dates of steamers, rates of fare, and other information is in course of preparation, and may be obtained when ready from any Pennsylvania Railroad Ticket Agent, who is also prepared to book passengers who may desire to take this trip through the Great Lakes and back.
