THE NEWS IN CONDENSED FORM FROM ALL PARTS OF THE COUNTY

PORT MATILDA.

On last Monday evening the Knights of the Golden Eagle gave another feed to the members and wives and best girls. Over one hundred persons were present and partook of the good things which were served by J. H. Crain. The event was quite a successful social gathering and all enjoyed themselves. After satisfying the wants of the inner man, excellent addresses were given by the ministers of our town, who were also present. They were Rev. Ellis, of the Baptist church, Rev. H. A. McKelvey, of the United Brethren church, and Rev. M. H. Ake, of the M. E. church. They seemed to enjoy meeting with our Eagle brethren and gave some very humorous stories concerning ministers in general. Music was furnished by the Port Matilda band.

If you are a good citizen and desire to see your own home town take a place of note in the world, uphold all things which are being done for the good and bestment of our town. Any man who will say one thing to your face and curse and swear in the worst kind of a way after you are gone from his sight, is not what he thinks he is. Far better for this world had such a man never been born. If you want to be a mean, low contemptible, insignificant, little man, despised by all who know you, follow in the path of the man who finds fault with the efforts which are being made by the boys of the Port Matilda band. If you are a good citizen, help them along by encouraging words and a helping hand now and then. They are making an effort to do good and keep our town at the front; so join hands and help keep the ball rolling.

Did you ever know a case of a steam engine becoming electrified while running? On Saturday the fireman of the mill, owned by Williams and Woodring, at Fowler, made a wooden wedge and got up on the platform beside his engine to stop a place where steam was leaking out between the boiler and steam feed pipe. He set his hammer down and in doing so he got his hand against the steam chest when he was greatly surprised by receiving a brisk electrical shock to the back of his hand. Others at the mill then tried it also and witnessed the same. On examination it was found that the whole engine and boiler too were charged and would give you a shock. The current was increasing in force, too. Bright sparks could be seen between a person's fingers and the metal just before your fingers touched. How the current was formed is a mystery, but is thought to have been caused by the escaping steam, for when the leak was stopped by the wooden wedge the current was cut off. It is a puzzle for some wise head to solve.

We had one clear day on Saturday in which it did not rain. Surely the cold, wet days cannot last much longer. Arrangements are being made for a big time here on the 4th of July. We had a successful celebration last year, and let us try to make this one surpass that. We can do it if we try.

Children's Day services will be held in the M. E. church on Sunday morning, June 12, at 10:30.

Port Matilda No. 2.

Memorial Day was, as usual, observed in Port Matilda. The town in the early morning was beautifully decorated with the stars and stripes, and Old Glory floating on a tall flag pole on the corner of the diamond. At 8:30 o'clock the grand parade, consisting of a few, and only a few, of the surviving boys in blue, assisted by the Knight of the Golden Eagle and Junior American Mechanics, both of Port Matilda, and the P. O. S. of A. of Hannah Furnace, began forming and by 9 o'clock all was ready, with the Hannah P. O. S. of A. drum corps marking time for the solemn march. They started for Mount Pleasant cemetery, arriving there at 10:30 o'clock; after performing their last sad duty, the parade, with scores of patriotic citizens, assembled in Mount Pleasant church where the Rev. Harry McKelvey, pastor of the U. B. church, delivered a patriotic address as well as a historic address, treating on the valor of the few who survive a gallant army of true Americans. His address was deep and impressive. After this dinner was partaken of and again the line of march was taken up for Black Oak cemetery, arriving at 3 o'clock. The solemn duty was again performed. The march was continued to the Presbyterian cemetery at Port Matilda. When near the town the parade was met by the Port Matilda cornet band who accompanied it to the cemetery. After again showing honor to our deceased comrades in the line, the parade, of the M. E. church, made an inspiring and patriotic address in which he beautifully portrayed the gallant deeds of the historic dead, once the boys in blue. After this the parade marched to the diamond at Port Matilda where it broke ranks.

A Woman's Great Idea. Is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always proves a godsend to women who want healthy beauty and friends. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvet skin, lovely complexion, good health. Five and one-half days will be spent in the Park, one day in Portland, one day in Seattle, one day on Puget Sound, going by steamer from Seattle to Vancouver, part of a day at Vancouver, one day at Laggan, one day at Banff, and sight-seeing trips will be made in St. Paul and Chicago.
