A Campaign Relic.

An interesting reminder of the contest between the Polk-Dallas and Clay-Frellinghuysen forces, in 1844, was found in the west end of Howard township recently and suggests that the campaign methods of to-day are not greatly dissimilar in some respects from those of sixty-six years ago. It is in medallion form, very slightly larger in circumference, though much thicker than a twenty-five cent piece of the current issue, and though it had evidently lain in the ground a long time the gilt with which it was covered is still comparatively bright. Attached to it are two small rings by which it was presumably suspended from the clothing, and they, too, are but little rusted. The obverse carries in fine relief, a fairly good likeness of Clay, with his name, and on the reverse is the inscription, "Clay and Frellinghuysen—Protection and Union," the whole being in an excellent state of preservation. Since then the question of the Union has been dimly and forever settled, though at a cost which makes one shudder to think of, but the fallacy of protection still rears its defiant head notwithstanding the surrounding bumps it is getting from year to year, and the little medallion remains as a memento of the heart-breaking chagrin of the great statesman and brilliant and aspiring man, whose burning ambition to be president was disappointed in 1824 when, as one of four candidates he received the lowest number of electoral votes; again in 1839, when General Harrison, after a long, hard fight in convention, beat him for the nomination; again in 1844, when he was nominated with practical unanimity by the Whigs, and beaten by a majority of 65 votes in the electoral college by the Democratic candidate, James K. Polk; and yet again when General Taylor received the nomination over him in 1848. The spot in which it was found is a part of a Methodist campmeeting ground which flourished in the older days, but has not been used for that purpose for nearly half a century, and on which a part of the little village of Mountain Eagle now stands. "Billy" Butler, the popular constable of township, now occupies the property in the garden of which the relic was found, and his little six-year-old son, "Jim," was the lucky finder. With it he found two other pieces of metal, one of which proved to be an old copper cent of the vintage of 1851, through the center of which some enterprising boy has punched a hole. The third piece is a G. A. R. medal just the size, thickness and very much of the general appearance of a silver dollar, and probably made of some alloy of silver. On each side is a base relief copy of the familiar group of two veterans clasping hands over the heads of a kneeling widow and her orphaned boy, with Liberty standing near with approving outstretched arms. Upon one side this group is within a wreath and circle upon which appear the words, "Grand Army of the Republic—1861-Veteran-1866." On the reverse the same group, including the inscribed circle, appears in smaller size, and within a five-pointed star, between the points of which are the words "fraternity, charity, loyalty." The soft metal of which it is made has permitted the wear and tear of carrying to somewhat flatten the figures and letters, but all can be distinctly made out by the aid of a good glass. Someone in the by-gone sometime, has grieved over the loss of these simple but interesting souvenirs.

Council Met.

At the usual time and place with all present excepting Messrs. Kline and Weber. Mr. Schenk was called to the chair. Minutes of last regular and special meetings were read and approved without change. Street committee reported sundry needed improvements in streets and sidewalks, all of which were referred back to the committee with power. Also that they had made exhaustive inquiry as to status of the proposed new bridge over Lick Run at Long's mill; and that the petition for a county bridge had been approved by two grand juries, and by the court, and that the question is now up to the county commissioners. Water committee reported reservoir as leaking badly, but without affecting present supply. No action was taken. Nuisance committee reported that the killing of animals was conducted within the limits of the borough by butchers, and the secretary was instructed to notify O. J. Allison to discontinue the practice. The dog and live stock regulations which received considerable attention at the last regular meeting were twice called up by the chair, but no action was taken. Special committee to secure the services of a borough counselor, reported that N. B. Spangler, Esq., had been employed; the report was adopted and the committee discharged. The ordinance prohibiting the use of fireworks in the borough was suspended for twenty-three hours between twelve o'clock, midnight, of Sunday, July 3, and eleven o'clock in the evening of Monday, July 4. Bills amounting to \$12.19, including the secretary's for services and supplies for \$7.66, were read, approved and ordered paid.

Little Harold Mayes was playing near his father and some men who were cleaning marble work with nitric acid, a bottle of which tightly corked, was lying nearby. In his play he rolled over the bottle, the cork was slightly loosened and some of the biting stuff touched his trousers, burned holes through them and scorched his leg rather severely. Under Dr. Kurtz's care he is running about again.

Miss Minnie Robb, who has been enjoying a visit with her sisters in Pittsburg, returned last Tuesday, bringing her bright little nephew, Harold Whippo, with her.

Chester A. Moore represented Lick Run Lodge of I. O. O. F. in the recent meeting of the Grand Lodge in Williamsport.

Reopened and Reopened.

During the past two weeks the M. E. church has been thoroughly cleaned up, repapered and partly recarpeted at a cost of one hundred and fifty dollars. Seventy dollars of this was contributed by the ladies aid society, leaving eighty dollars to be raised when the congregation assembled last Sabbath morning to formally reopen the house for service. District superintendent B. C. Conner preached a telling sermon, and then stated the financial case and asked for subscriptions. In less than ten minutes one hundred and six dollars had been subscribed, fifty of which was paid down in cash, and the whole congregation wore a peaceful smile over the soundness of their finances. The church at Beech Creek is undergoing the same sort of renovation, though on a larger scale—costing something over five hundred dollars, one-half of which is already in hand—and the reopening there will take place before very long. This will make four of the five churches comprising the charge, Kennedy, Hunter's Run, Howard and Beech Creek, which have been renovated at considerable cost within the little more than two years of the incumbency of pastor R. S. Taylor; Curtin's being in good condition that renewals have not been needed. A very good showing for pastor and people.

Children's Day.

Service at the Christian Chapel last Sabbath evening was even more interesting than usual. All the little ones were well up in their parts and performed them with much presence and ease. The credit for their training and management is due to Mrs. W. L. Cooke, Mrs. Marius Miner and the Misses M. H. Lucas and Trenna Fletcher.

The new primary election law worked very smoothly and quietly on Saturday. Entirely too quietly, if the results do not properly express the wishes of very many of our voters it is because they remained at home, and did not manifest their wishes.
